

Former Heppnerite Married in Kinzua

In a 7 p.m. ceremony on December 20th, in the Kinzua Community church, Miss Ruby Norine Cecil, daughter of Mr. and Mrs. Vernon Cecil of Kinzua, became the bride of William Neil Edwards, son of Mr. and Mrs. Bill Edwards of Fossil.

The double ring service was read by the Rev. Edwin Derrick before an altar decorated with white candles in candelabra adorned with pink satin bows and big white baskets of pink and white roses. The pews were marked with pink satin bows, alternating with sprays of pink and white gladioli.

The bride, escorted to the altar by her father, wore an empire styled gown of white satin and lace with long sleeves of lace and sheer, ending in a lace cuff fastened with eight pearl buttons. Her waist-length veil was held by a band of lace and satin. She carried a shower arrangement of pink roses and had a penny in her shoe, placed there by her father.

Three-in-one Delightful Evening

Are you ready for an evening of good entertainment? Then be sure to attend the Heppner Community Drama Club's "Evening of One-Act Plays" on the Heppner High Stage Feb. 1 and 3.

A broad variety of plays has been selected to please all types of likes.

"The Boor," a comedy being directed by Jane Rawlins, is set in 19th century Russia and centers on a Russian officer who comes to collect debts still owed to him by a widow mourning her husband's death. John Rawlins as the officer and Mary Abrams as the grieving widow should delight all with their portrayals of the characters in this classic comedy.

A more serious play, "Balcony Scene," is the story of a young man who returns to his own funeral. At one point in the play, the man, (Jim Cutsforth) turns to his friend, (Greg Davidson) and says, "I don't like it." His friend turns, smiles, and says, "Few people do." The conversation between the two is typical of the comical lines in the play that carries a serious double-meaning.

Others in the cast will be Luanne Kelly, Randy Morris, Lynda Baker, Cheryl Turner, Shannon Kelly, and Jeff Marshall. The play is being

directed by Lynda Slusher. "Overtones," the serious play in the series, deals with the hypocritical side of women. The cast is Lynda Slusher and Patricia Hughes, as the women, and Mary Abrams and Lynda Baker as their inner-selves, trying to reveal the women's true feelings. Mrs. Slusher is also directing this play.

Curtain time will be 8:00 p.m.

Beecher Emert Takes Bride

Beecher Emert and Ivy Brown were married earlier this month by Judge Paul Jones. They left immediately for the Emert ranch at Izee which Beecher was anxious to show to the new Mrs. Emert. She says the trip back from John Day to Pendleton by way of Long Creek was most beautiful. Fresh snow was on the trees and the whole way looked like a Christmas card.

Living east of the mountains is new to Mrs. Emert. She grew up in the Kennewick area

but has lived in Portland in more recent years.

Mrs. Emert has many interests. She like antique and has some remarkable volumes in her book collection. She is a trained dog groomer. She like to sew. Like Emert she likes the outdoors, hunting, fishing and camping.

She is a student pilot and hopes to continue her lessons when the weather is more settled. Presently she is finding herself very much involved in her husband's business, The's Cafe in Ione.

15 Days Down The Colorado

Beached at Salt Creek for explorations.

Mr. and Mrs. Orville Cutsforth and Mr. and Mrs. George Stillman floated down the Colorado river last summer for 311 miles and 286 rapids. Slides and stories were enjoyed by the Heppner Morrow County Chamber of Commerce last Monday.

Motors were used only in the worst rapids and by floating they had time to see the wonders of the river and shores. They put ashore frequently and climbed the trails to see and explore. Meals were prepared by the two guides and Orville says he was constantly amazed by what came out of that Dutch oven. They had homemade ice cream the last day out.

The trip was made in army type rubber rafts. Everything went into water tight containers. Plastic bags were kept over cameras worn around the neck.

There was lots of river traffic as many run the Colorado in considerably less time without stopping to take the many side trips the Heppner four did.

They ran the two worst rapids on a navigable river. One of which dropped 19 feet and one 37 feet in three tenths of a mile. The rapids are caused from

rock slides following a cloud burst. They may come down a stream entering the Colorado or off the cliff slides of the river. Orville said with the building of the dams the river isn't scouring the river bottom clean as it once did and the river may in time become unnavigable.

When the cliff sides force the river to a 75 foot width the water may be 200-300 feet deep. It has a temperature of 44 degrees. The walls rise 2000-3000 feet above them in places. They saw Indian ruins used 900-1200 years ago. Deltas in the river formed rich farming areas. Grain was stored in caves that are now way above the level of the river. The river is said to lower itself 1 inch in 100 years. The river is 2 billion years old.

There's 10,000 burros in the canyon. Maps given to the travelers before they started indicated the various geological layers as well as the geography of the river.

They saw a natural bridge, highest bridge in the world, Marble Canyon and Bright Angel Shale. Their trip ended in Lake Mead.

Barbara, who is afraid of water, was so thrilled with the trip she is ready to do it again.
