Total Assets	\$8,585.32
Accounts Payable	1,849.23
Total Liabilities	\$1,849.23
Net Worth	\$6,736.09

Food Processing Plant Proposed at Boardman

By RUPE KENNEDY

Port of Morrow Coordinator
BOARDMAN, Ore.—The Port of Morrow unveiled plans for a 350-acre food processing park on land it owns at Boardman and serviced by the Union Pacific mainline and Interstate 80N. Rupert Kennedy, the port coordinator, said the proposed

park, capable of accommodating seven to ten tenants, is composed of 400-ft. wide lots connected by 13,100 ft of rail and 9050 ft. of access roads.

Site development costs have been estimated at \$2.26 million with grading of overburden into gravel excavation ponds estimated at \$1.8 million.

Kennedy said efforts would be made to have a port interchange on Interstate 80N approved. Presently the freeway has an interchange at Boardman to the west and another at the U.S.730 junction to the east.

The port has retained a Portland engineering firm to plot the park.

The port intends to submit an application for an Economic Development Administration grant to finance development of the park site.

Heppner Soil & Water Conservation District Annual Financial Report

January 1, 1972 to December 31, 1972

Bank Balance of Jan. 1, 1972		\$79.63
Income from Cooperators	\$ 515.43

Recommend to clear the books of delinquent and contested accounts of 38.05

Respectfully submitted,

Edmond Gonty, Treasurer

Goals For Coming Year

1. Give support to the Columbia-Snake-Palouse program or similar national contractual program for conservation work.
2. Enter Goodyear conservation contest.
3. Urge construction funding be made available for Rock Creek Watershed.
4. Continue emphasis on conservation education, including grade school tours and 5th grade Poster contest.
5. Work with Heppner Water Control District in application of plan for solving the flooding problems in Heppner.
6. Continue emphasis on wind erosion work.
7. Work with county ASCS committee for the reinstatement of cost-sharing program for conservation work.
8. Evaluate the land treatment program on Shobe Canyon watershed.
9. Study the irrigation water management problems of the West Extension Irrigation District.
10. Work with City of Ione and landowners in Rietmann Canyon watershed in trying to solve their flooding problems.
11. Support the actions of the Port of Morrow in their concept of multiple use (nuclear-irrigation-industry-recreation) development for northern Morrow County.

Last Year's Achievements

1. Completed the construction and seeding on Shobe Canyon Watershed land treatment project.
2. State Engineers Office completed feasibility study of Rhea Creek Watershed.
3. Diversion construction is nearing 3,000,000 feet. Construction for 1972 was 758,364 feet.
4. Soil Surveying was completed on 84,900 acres.
5. Completed leakage repair work on Lake Penland.
6. Initiated action for printing of County General Soils Map.
7. Completed construction of 33 debris dams.
