## Advanced Math

The Gazette-Times received a call Tuesday afternoon from Governor McCalls office on a special program. They wanted to know the number of inches devoted to food in an average issue. This included food ads, 4-H cooking club reports, Extension stories related to cooking and What's Cookin'?

If the special program was understood correctly, they were trying to determine the number of trees that would have to be cut down to make the paper that was used to print this on. Then determine the energy units that would be given off when that amount of paper was burned. This and other information would be passed on to the legislature that would provide them a basis for making better decisions.

Wow!

## Feeding Your Family

It will cost you about \$8,300 to feed a girl from infancy to age 18 and about \$8,900 for a boy, according to U. S. Dept. of Agriculture estimates. Food costs per child increase as the child grows older. The food needs of young boys and girls grow at the same rate until they are about nine years old, then a gap in their eating pattern emerges.

These costs do not take into account any rise in food prices or the candy bars and ice cream cones purchased by the child away from home. Nor does it include the high cost of providing snacks and occasional meals for his friends.

## WHEAT LEAGUE CAKE IS AGAIN CHOCOLATE

Alda Scharf, Amity, Chairman of the Domestic Wheat Utilization Committee of the Ore. Wheat Growers League, has announced the cake and icing recipes to be used in the 1973 cake baking contest.

The cake this year is a "Mahogany Chiffon" with French Cream Frosting.

## 4-H Leader Honored

Rita Wolff 16 year leader honored at recent 4-H Leaders' banquet.

I know the scoreboard said we won the game with Maupin but I never did figure out when we did it. Another thing I'm trying to figure out is this going out of bounds when there's a foul to a certain point then they take to the free throw line. Going out of bounds really speeds up the game. I think I like the change.

Pancakes...Charlie's Favorite Shrove Tuesday has always meant pancakes. Several years ago we were in New Orleans for part of the Mardi Gras and then went up to Tuscaloosa, Alabama to visit our son, Don and Sylvia. Shrove Tuesday came, I called three Episcopal churches to see what time they were having their Pancake supper. At one they told me "Oh, we used to do that". The next one said "Oh St. Matthews does that", and at St. Matthews they said they had quit. So we didn't have pancakes that year. I'm glad All Saints still does.

## Just in Time

While I was at Riverside last week, Howard Mudder told me a little trick just in time. He says he sets the ASA reading at 800 on his camera for 400 film and then shoots without a flash. Then he said to develop for a little longer. Later I was telling Dennis Toney, Heppner High, about it and he says they do it all the time for basketball pictures but they develop them in a special solution.

Monday I gave it a try. My flash wasn't working when I took the picture of Clarence Bauman receiving his citation for his beyond-the-call-of-duty as Veterans Officer. Then when I wanted one of him with Hazel I quick tried what Mr. Mudder had told me. At least I got a picture. It's real good of Hazel but I'm afraid it will be dark of Clarence because it seems like this new process makes my dark pictures DARKER.
