The cost per person will depend on the number participating. Plans are being made for a group luncheon in Salem. The purpose of the trip is to learn about the bills under consideration in the legislature and to become more informed about the legislative process. According to Extension home economist Molly Saul, one of the functions of the Extension program is to help homemakers become better informed about community issues, and in turn help them become better citizens.

G-T Story

A short time ago we carried a story about Ralph Drane, a retired chemist coming to Lexington to make his home with the Harry Nobles. Mrs. Vern Leathers, who lives two short blocks from the Nobles home and assists her husband at the V & G Tavern, read the story and recalled that when she was Grace Marquis and attended grade school in Ontario, Oregon she had schoolmates named Margaret and Ralph Drane. So sure enough the G-T story that Mrs. Weatherford turned in has revived a friendship that began over fifty years ago. Small world...good reporting...good reading...and wonderful remembering!
