

held at the home of Mrs. Paul Tews. The club had an exhibit at the 4-H Leader's Forum in Pendleton last month. Members displayed locker organizers they had made as sewing projects.

At the Judging Contest on May 4 in Heppner, club members showed their talent in

judging. We had a fun time and really learned a lot.

News Reporter, Natalie Tews

A politician is a man who approaches every problem with an open mouth.

4-H

THE SNAPPY SNIPPER'S
Sewing club met Tuesday, May 1 to fit and discuss patterns. The members brought their patterns to the meeting, and after they were fitted we discussed alterations. The meeting was

F Review AND Forecast

Bill Greenup Elected to Angus Assn.

Bill Greenup, Heppner, has been elected to membership in the American Angus Association at St. Joseph, Mo., and announces Lloyd D. Miller, executive secretary. There were 484 memberships issued to breeders of registered

Aberdeen-Angus in the United States during the past month.

THE DALLES.... Exhibitor Yvonne Ingebo, a 4-H livestock member of the Mill Creek 4-H club, The Dalles, will exhibit a lamb at the 27th annual Oregon Wheat Growers League Junior Livestock Show starting June 3. Yvonne is president of her club and has been a 4-H member for 7 years.

Summer School Scholarships Needed!

Twenty-four delighted Morrow County 4-H members are anxiously awaiting the moment when they climb aboard the bus to Corvallis for a week of Summer School activities. Scholarships are needed to pay the expenses of the members. All former scholarship donors as well as other clubs, organizations, businesses, and individuals are asked to send their check for \$30.00, made payable to "South Morrow 4-H Council", to the Summer School Scholarship Fund, Box 397, Heppner, Oregon 97836.

Gene Pierce, President of the Bank of Eastern Oregon has faithfully served as Collection Chairman for The Summer School Scholarship Fund for many years. This year due to the pressure of business, Gene finds he is unable to continue to serve 4-H in this capacity. 4-H appreciates the years of quiet service Gene has given to this project.

4-H Summer School is a big event in the lives of 4-H members. On campus members attend a variety of classes, learning leadership as well as skills. For many it is the first experience with college living, offering encouragement to students to continue on to higher education.

The Navy's Advanced Electronics Field Program

What will your rate (rank) be? Depending on how quickly you advance from one achievement level to another, you'll be either a Second Class Petty Officer or a Third Class Petty Officer by the time you've completed your training phases of the Advanced Electronics Field Program.

How much time will you spend in training?

It varies, depending upon which specific area of electronics you train for. For example, an Electronic Technician will train anywhere between 57 to 66 weeks, while a Data Systems Technician will train between 53 and 80 weeks. On the average, your Advanced Electronic training lasts about a year and a half.

What subjects will the training cover?

You will begin by studying the fundamentals and applications of electronics, electricity, magnetic amplifiers, and synchro-remote control systems. More advanced courses are taught as you proceed through the program. These include the study of radar, special circuits, transistors, and analog and digital computer fundamentals. As you continue to advance, you

HOOF & HORN

Mark Sargent called the meeting to order May 9. The minutes and roll call were read. There will be a Livestock and Meat Judging at The Dalles.

Rhonda Sargent and Kitty Bellamy gave a demonstration on how to judge a livestock animal, such as beef, swine and sheep. Dick Sargent had some posters on the grades of meat. He said we could look at them. The meeting was adjourned.

It doesn't take a "crack shot" to shoot an insulator

A "crackpot" can do it

It doesn't take much of a man, nor any particular skill, to win a shoot-out with an insulator. It's a wasteful, irresponsible act... and an obvious offense.

And it can't be shrugged off as kid's play. Anyone old enough to shoot a gun is old enough to respect its use.

Insulator shooting can knock out electric service, costing untold losses to farmers, businesses and families. It could even be vital to the medical well-being of someone.

If you see anyone shooting at insulators, report the act to your county sheriff. You'll be helping in a crack-down on crackpots.
