School Long Range Planning Committee Prepares for Action

The Long Range Planning committee for Morrow County School District R-1 met early in May. Louis Carlson was elected chairman and Ron Daniels secretary.

Considerable discussion was held regarding the reasons for the defeat of the serial levy. Opinions were expressed that the timing was wrong and that people felt the cost of the shop at Heppner was too high.

The committee planned a course of action on a renewed effort to meet the building needs

of the district. It was determined that the needs the district had in the spring were still in existence. The committee will work out a plan to bring the issue back to the public for a later vote.

More local involvement will be obtained by establishing attendance area committees to prepare a list of local needs. This committee will include local advisory committees, two or three teachers, the local building principal. Local committees may add members from local service organiza-

tions. The committee would review the needs of its attendance area; establish needs and priorities; submit a report of recommendations to the county planning committee; work to acquaint friends and neighbors with the findings of the committee on the needs of the county.

Organization and meetings of these local committees will be held June, July and August and into September, October and November.

A NOTE FROM BONNIE CLUP... says she misses us all, the flowers and the warm days. We miss her too!

ENTHUSIASM in capital letters is what the girls playing in the soft ball league have. It is really great to see them and hear them.

All it took was a couple of daughters pushing and prodding at their dad to do something for the girls as he was doing for the boys. Congratulations to the daughters of John Messick, Little League commissioner.

The ball started rolling and the momentum has picked up girls and coaches for three teams. They play Tuesday and Thursday evenings at 6 o'clock on the Grade School diamond behind the grade school gym. Stop and watch sometime.

Style Revue

Having fun are Candi Mansfield in a pair of wide legged hip hugger pants of easy care suede cloth fabric. The layered look is completed with Candi's raspberry and white striped top.

With her is Dorinda Nance who has made plaid pants of red and green wool. The pants are fully lined with silky green taffeta.

A Visit With McDuffee

Ray McDuffee of Seal Rock was in Heppner for several days and attended the annual Pioneer Memorial Day picnic. He and Phil Mahoney were the only two boys who graduated from Heppner in 1923. Excel Hedrick superintendent later went to Medford. Irving Mathers was the principal. He married Kathy Mahoney.

As he reminisced, he recalled they had moved in from Hardman when he was in the 2nd grade. His dad was deputy sheriff and then was sheriff of Morrow County for 18 years. A medal he was presented for catching a couple of train robbers has since been presented to the Museum by Mr. McDuffee's two grandsons.

After graduation from Oregon State he taught for 13 years and then as a reserve officer in the

ROTC, he went into the military during World War II. He had many kinds of duty from the Philippines, Java, Australia and New Guinea. He wrote a text book for Japanese Naval shipping.

He later went back to George Town University (a tough school) where he got his Masters in International Relations with a history major and his Doctorate in World History. After he retired he taught again. This time at Santa Rosa for seven years. California got too crowded and he and his wife moved to Seal Rock three years ago.

The Irish shines bright in his blue eyes and pink cheeks and he has a thick shock of white hair. He sparkles when he talks about coming to Morrow County in the fall to go hunting as guest of Beth and Bari Clark.

Beautiful Americans

There's a revolution in today's world of fine jewelry. What counts to the modern woman is beauty, not pretension—value, not price.
