KATHY GILBERT AND LITTLE JOE

She won a horse, became a Princess

Kathy Gilbert won her first pony at a rodeo in Portland when she was 10 years old, and has been a horse lover ever since.

The future Morrow County Rodeo Princess took the Welsh pony home to break and train him. He was a "mean little cuss," she recalls, but it gave her a challenge she appreciates to this day.

Kathy, 16, is the only daughter of Bob and Lorrene Montgomery of Ione. Born in Albany, she was raised on a dairy farm there and attended local schools until she was 9, at which time the family moved to Beaverton.

The family moved to Ione in 1968 where she completed elementary school. This fall she will be a senior.

She is active in school affairs—Pep Club, G.A.A., and has served on the staff of the Ionian, high school yearbook. Last semester she was one of two girls enrolled in the woodworking laboratory.

Horseback riding and skiing are her favorite sports, although she enjoys all sports. She also enjoys sewing, leather working, beadcraft and crocheting. She has also been active in 4-H Club work, in which she was a junior leader; the Ski Club and the Wranglers.

Right now, Kathy is helping break and train her father's horse. "The entire family likes to ride, all except mother," Kathy said. "I enjoy riding with dad because we put the horses through their paces and ride the steep slopes. Maybe that's why mom doesn't ride with us very often."

Kathy would like a career in accounting, veterinary medicine or home economics. "None of the three are related," she laughed, "but I like them all."

A dance honoring Princess Kathy will be held Saturday night, Aug. 4, at the Morrow County Fairgrounds. She will be right at home there, too, because "I like country music, all the way."

Kathy will celebrate her 17th birthday on Aug. 16; same day the Ione Lions Club meets for lunch!

Group visits penitentiary

A group of Heppner residents visited Walla Walla Penitentiary last Friday.

Purpose of the two-hour tour was to observe unique prison reforms being conducted there for prisoners. One feature involves maximum security prisoners who have founded an upholstery business, incorporated it, pay taxes, hire accountants and legal counselors, and employ workmen—all as part of a plan to orient them into all phases of the business world.

Another group from here will be visiting the prison on Aug. 17.

Those making the Friday trip were Mike Sweeney and Mrs. Tiny Sweeney, Don Bristow, Shirley Baker and Carolyn Davis.

Impossible? Not for us

Central station electric service in rural America was once considered an "impossible dream."

But today nearly a thousand locally owned rural electric systems, such as ours, are hard at work—providing dependable power to more than 20 million consumers... gearing up to keep pace with mounting needs.

Our crystal ball tells us we'll be working even harder in days to come. But then, we've always known our "impossible" job would never end.
