Long range planners make recommendations

The Lone Schools Long Range Planning Committee met in the school library Jan. 14 and adopted three recommendations to send to the county planning committee.

The highest priority was placed on construction of a new wood and metal shop facility across Gooseberry Road, with the present being converted to a music instruction area. The committee favored construction of a low cost metal frame or concrete block facility with the majority of the capital outlay being put into instructional equipment for expansion of the industrial arts program. Heating would be provided by electrical space heaters.

The second priority was placed on continuation of essential reconstruction of the present elementary building with a view toward keeping it in service up to but not exceeding 15 years; whereupon, it would be replaced by a new elementary structure in accordance with enrollment at that time.

A third priority was placed on the addition of classrooms at the south end of the high school for art instruction and for regular classes in light of an anticipated slow increase in enrollment.

Members of the lone committee are Bob Rietmann, John Edmundson, Don McElligott, Gene Rietmann, Diana Kincaid, Darrel Wilson, Dorothy

Stefani, Mary Ann Palmer, Tanna Padberg, Harold Holtz, Larry Prock, Charles O'Connor, Gar Swanson, Bob Drake, Dode Krebs, Rev. William Arthur, Don Heliker, Lewis Halvorsen, Lorraine Ladd, Burl Akers, John Jepsen, and Linda LaRue.
