New Accounts Representative Cista Vernard, will be happy to explain First Check Service to you.

FirstCheck Service. It makes managing your money easier.

Keeping track of where your hard-earned dollars go every month can be pretty difficult. There's the house payment, car payment, food, clothes and all the other expected and unexpected expenses. But there's one thing that makes figuring it all out a whole lot easier — a checking account at First National. FirstCheck Service lets you choose from three different checking account plans, according to your individual needs. With the Check Watcher Account, you pay 15¢ for each check you write. There is no

other charge. With the First-O-Matic Account, a single monthly service fee of \$2.50 is automatically deducted from your account. You write as many checks as you want, and get pre-numbered, personalized checks at no added cost. And, with the Regular Account, your service fee is based on the average balance and the number of checks paid during the month. Maintain a minimum balance of \$300 or an average balance of \$500 in your Regular Account and you pay no service fee at all. FirstCheck Service is a simple way to manage your money, too. You receive a statement every month. So you have a detailed record of all deposits and withdrawals. Or, if you're using pre-numbered checks, you can receive First Numbered Statement. It lists all processed checks in numerical order...

just as you wrote them. So you reconcile your checkbook fast and accurately every month. And it's free. All you have to do is ask. Stop by First National soon and ask about our FirstCheck Service. It's the money-management system you can live with.

We'd like to get to know you.
