Vote YES Nov. 5

To continue the present tax level to the Heppner Water Control District

- It maintains the channel through the City of Heppner to eliminate obstructions
- It maintains the land treatment works in Shobe Canyon that prevented flooding during last year's heavy rains
- It operates the automatic storm warning devices in Balm Fork and Shobe Canyon
- It proposes a land treatment project similar to Shobe Canyon on the remainder of the land within the District boundary

What will this cost the taxpayer?

The Heppner Water Control District is authorized to collect 1/2 mill or 50 cents per \$1,000 value of property in the District for a period of three years. After the three-year period ends next year, 1975, the Water Control District will no longer have a source of income. Your "Yes" vote will allow the Heppner Water Control District to continue its flood prevention work without any increase in taxes.
