

# 1974 Accomplishments

1. Completed two Coordinated Resource Management Plans totalling 183,830 acres, involving Kinzua Corporation, U. S. Forest Service and the Oregon Wildlife Commission.
2. Completed the first long term cost share agreements (LTA) in Morrow County for Al Osmin and Rudy Bergstrom.
3. Established the Wind Erosion Guidelines for use after Senate Bill 13 is enacted.
4. Completed construction of more than 500,000 feet diversion ditches. Construction is approximately 50 per cent completed on the Blackhorse Canyon Project.
5. Two automatic storm warning devices and a telemetered precipitation gauge have been installed in the watershed above Heppner.
6. Soil surveys were completed on more than 100,000 acres.
7. Morrow District Improvement Company has been formed and Preliminary Irrigation Feasibility Study is completed.

# 1975 Goals

1. Push for approval of Senate Bill 13 that enables SWCDs to establish erosion and sedimentation ordinances. Adopt the proposed wind erosion ordinances in the northern portion of the county.
2. Work closely with the Morrow District Improvement Company to achieve maximum irrigation benefits from Columbia River water.
3. Begin the soil survey map measurement project for adaptation and use by the county assessor.
4. Continue emphasis on conservation education including grade school tours and 5th grade poster contest.
5. Complete Heppner Water Control District Measure Plan and Work Plan. Begin construction in the fall of 1975.
6. Complete the Blackhorse Canyon Special REAP Project. Push for funding of the Clarks Canyon Special Project for 1975. Work with County and State ASCS Committees to get farm-over gradient terraces as a cost-shared item.
7. Urge construction funding be made available for Rock Creek Watershed Project.
8. Stress the importance of proper maintenance of diversion and silt dams within the county. Work with district cooperators to attain complete, adequately spaced diversion ditch systems on their farms.

DICK McELLIGOTT, Ione, was recently elected president of the Oregon Association of Conservation Districts. The OACD, a voluntary organization of Soil and Water Conservation Districts throughout Oregon, represents all districts at the state level.
