Apply now for summer youth jobs

Around 8,500 boys and girls aged 15 to 18 will get summer jobs working on conservation projects under the 1975 Youth Conservation Corps (YCC) program, according to the U. S. Departments of Agriculture and Interior.

The eight-week jobs, which start in mid-June, will be in the YCC camps located on federal, state and territorial lands. The basic pay rate is \$12 per day, but this amount can be reduced when food and quarters are provided.

Young people from the 50 states are eligible if they meet the age requirements, have no history of serious criminal or anti-social behavior, have a social security number, and possess work permits in states where these are required.

Applications may be obtained from Thomas P. Sullivan, Governor's Youth Commission, Salem 97310.

The county assessor's office is "caught up in its same old yearly cycle." However, help is coming about April 1. An appraiser-trainee will arrive then to work with Charles Patching. Only 12 are selected from the 40 to actually serve on each jury. Mrs. Parrish says that all the county and court lists are open to the public.
