

NEWLY INSTALLED EXALTED RULER DEAN NAFFZIGER accepts the gavel from Bob Mahoney, Past Exalted Ruler, of the Heppner Elks Lodge. Other officers installed Saturday were Forrest Burkenbine, Don Ball, Jerry Anderson, Jim Cason, Hank Pointer, Ed Gunderson, Dave Barnett, Ken Turner, Don Cole, Glen Ward and Ed Dick.

Senate passes farm bill

After Senate approval of a new farm bill, Sen. Mark Hatfield said it "will assure farmers of market stability, and will encourage continued all-out production, which is so important in efforts to eliminate hunger—both at home and abroad. It also will help keep consumer prices from rising."

"For Oregon farmers, the increase in the target price of wheat is critical," Hatfield explained. "A provision suspending all meat imports for 90 days will help the already depressed Oregon cattle industry from foreign imports."

"While the bill still must go to conference, the strong senate vote—57 to 25—endorsing this program tells farmers that congress supports full production to meet the food needs of America and the world."

Local student member of business group

The 78th chapter of Pi Sigma Epsilon, national professional fraternity in marketing, sales management and selling, will be installed by national and regional officers at Oregon State University April 4.

The chapter is being sponsored by Portland members of Sales and Marketing Executives International, an organization that has supported Pi Sigma Epsilon since it was founded in 1952.

21 OSU students will be charter members of the new chapter and include Lewis D. Barnhart, junior of Boardman.

Irrigon

Sharpe and Preszler, contractors, have completed laying over 10,000 feet of new waterline in the Irrigon water system improvement project the past week. Ten fire hydrants have been installed so far. Some have replaced standpipes that were installed with the initial system. The laying of 12-inch casing under the highway and railroad at 13th Street has been completed in preparation of laying the remaining several hundred feet of waterline.

The contractors have been plagued by thieves removing warning lights from barricades and barricades with lights have been stolen from some excavations. Several hundred dollars worth of safety equipment was stolen from the job the past 3 weeks.

People in Irrigon are still talking about the community Easter morning service. Since the weather was too windy for an outdoor Sunrise Service everyone was happy to find shelter in the school cafeteria where Verdie Isom and helpers were preparing a breakfast to be remembered. Approximately 100 people were served with a freewill offering taken to cover expenses.

They gathered again at the school in the evening to see the film "A Thief in the Night." The Umatilla Assembly of God joined the Irrigon Baptist and Assembly churches.

Prospective college students attended Campus Day at Northwest College in Kirkland, Wa., April 4 and 5. Young people from Irrigon included Cecil Rock, Rocky Radabaugh, Donna Driver and Sue Pugh. They were accompanied by Pastor and Mrs. Robert Schmoll and LaVelle Partlow.

Mr. and Mrs. Glenn Hoover have returned to their home in Irrigon after spending the winter in Phoenix, Ariz.

Recent visitors of Mrs. Myrtle McNamee were Mrs. Ethel Kenneth and daughters, Laurie and Tracy. Also visiting was Jim McNamee, her son from The Dalles.

Mrs. Anita Pisto and sons, Robert and Jeffrey of Port-

land, visited her parents Mr. and Mrs. Perry Pummel. Her brother Daryl of Portland was also a visitor during the Easter holiday.

Mrs. Guy Parke and children of Portland visited her parents Mr. and Mrs. E.A. Stephens for several days.

Visiting at the home of Mr. and Mrs. E.A. Stephens on Saturday were his sister, Mrs. Mae McKinney of Pendleton, and his niece and her husband, Mr. and Mrs. Frank Eggmann of Tacoma.

Mr. and Mrs. David Rand and family of Portland spent Easter Sunday at the home of his parents, Mr. and Mrs. Batic Rand.

MOVING TOWARD METRIC

Are you ready for metric? Think positive, and attend an extension study group lesson designed to help homemakers prepare for the change to the metric system.

Leader teachers recently trained to present the timely topic in Morrow County are Louise Keene, Shirley Palmer, Lorna Ilea, Betty Schmeider and Janita Ryan. They will be assisting their friends and neighbors in learning to think metric at Pine City, Ibea Creek and Boardman-Irrigon study group meetings in April.

HIS BAND TO PLAY

The Heppner High School band will perform on Main Street during the Moonlight Sale this Friday evening. The band will be playing between the hours of 7:30 and 8:30 p.m.

Men growing bigger, if not much better

One of these days Americans won't have to ask, "Hey Stretch, how's the weather up there?"

They'll all be up there with him, and can check for themselves.

That's the view, perhaps stretched a bit, that scientists are taking after studying the height of people one generation after the next.

Following the latest round of measuring, it appears that more than ever it's a tall man's world and getting more so all the time, the National Geographic Society says.

In the last two generations, Americans have grown 1 1/2 inches, and now at an average height of 5 feet 8.2 inches they continue to be the world's tallest people except for the Watusi and Dinkas in East Africa.

Europeans have grown that much, 1 1/2 inches in a much shorter time. Japanese junior high school children are 2 to 2 1/2 inches taller than youngsters there were 10 years ago. Bigger classroom desks are now a nationwide necessity.

Around the world, men with

tape measures have noticed the same thing: almost everybody is growing taller. Why, however, is not so obvious.

Nutritionists say it is because most people are eating better than ever, especially more protein and vitamins. With Americans, another factor may be that they are supposed to be the world's most overfed. Health care is generally better than ever, say doctors.

A genetics expert talks about a melting pot effect. He says Americans' average height seems to have begun inching upward following the floods of immigrants in the last century.

The most primitive people, according to their fossilized bones, may have been about 3 feet high. Historians say Christ was less than 5 feet.

If their shining armor is proof, knights were only about 5 feet in their spurs, and a Minuteman in the American Revolution was about 5 feet 4.

American doughboys of World War I averaged 5 feet 7 1/2 inches. GI's in World War II were around 5 feet 8 1/2 inches, and Viet Nam vets averaged 5 feet 8-nine-tenths inches.

Towering Americans are

most noticeable on basketball courts. There are 20 college players over 7 feet, and five in the National Basketball Association, including 7-foot-2-inch Kareem Abdul-Jabbar.

Before David flattened him, Goliath stood 9 feet 6 1/2 inches or 6 feet 10, depending on how scholars read the Old Testament. The tallest American, Robert Wadlow, was 8 feet 11.1 when he died at age 22.

There may be at least one advantage to being tall. Some companies tend to hire tall men, apparently impressed largely by their size, despite equal or better qualifications of smaller job candidates.

None of this apparently goes to their heads. They may be taller, but their average hat size is still 7 1/2.

Americans may be nearing their ceiling of growth, but some nutritionists think food technology could put six more inches on another generation.

The sky is not the limit. If a Gulliver-like giant grew close to 40 feet tall he would have to start taking life sitting down. Otherwise, calculating his weight and the strength of human bone material, he would break his leg every time he took a step.

"Here's something new... I saw it advertised on Television!"

"WHO'S WHO IN MORROW COUNTY" CONTEST

Copyright 1975 by GEM Enterprises and Associates. All rights reserved.

Where to look for clues:

Clues may be hidden in any ad in this section of 30 merchants whose ads are printed below. When an additional ad from one of these sponsoring merchants appears elsewhere in the paper, they too may have clues hidden in them.

Clues will be scattered. There may be from one to five in any ad—or none. This is a contest of skill, and we intend to do our best to outwit you! We invite you to do your best to outwit us.

Contest rules:

1. This is a family fun contest. One entry per person (a family of four could submit four entries). Anyone may enter unless a member of your family is employed by the merchant whose ad is heavily bordered this week (this applies ONLY during the week this ad is bordered). Employees of other sponsoring merchants are eligible.
2. Nothing to buy. Use any slip of paper for entry blank. It is not necessary to be present to win. It is not necessary to be a subscriber to the Gazette-Times to enter.

3. The Mystery Person may be anyone in Morrow County. Clues for his or her identity will be hidden only in ads for sponsoring merchants. If by coincidence the name of the Mystery Person (or other facts about him or her) happens to appear in news items, editorial matter or other places in this newspaper, these will not count as clues in this contest.
4. To enter, write down the name you think to be the Mystery Person. Add the total number of clues you can find in ALL the ads of sponsoring merchants in this issue. You

do not have to list all these clues, just give the total number of them. Don't forget to add your name and address. Then drop your entry in the box located at the sponsoring merchant whose ad is bordered with a dark border in the ads listed below in this issue.

5. There is no other place where entries will be accepted. Any member of the family may bring in all the entries for that family. Children under 12 must be accompanied by an adult.
6. This week's contest starts when you receive this issue and closes at 5 p.m. Friday of this week.
7. At that time (5 p.m., Friday) a drawing will be held at the store where entries have been received for this week's contest. The first entry drawn that correctly identifies the Mystery Person will win \$20 in cash. If that entry also lists the correct number of clues hidden in all ads of sponsoring merchants, a bonus of \$7.50 will be paid. Whenever this bonus is not won, it will be added to the following week's bonus, which will continue to grow until it is won.
8. Every precaution will be

taken to prevent typographical errors that might be mistaken for clues, but errorless typography cannot be guaranteed—by anybody. The publisher of the Gazette-Times will be the judge in all questions and his decision is final.

Family participation gives you a better chance to win the jackpot. Your wife, husband or some bright-eyed youngster may spot a clue that you miss!

Think you can outwit the contest? You can't win if you don't enter.
