World Day of Prayer

World Day of Prayer will be celebrated Friday, March 5, by Church Women United who will join in a chain of prayer with millions of people in 169 countries. The worldwide service is sponsored by the International Committee for World Day of Prayer which has appointed Church Women United as the official sponsor of the Celebration in this country.

Heppner Church Women United invite all to join this worldwide fellowship at Assembly of God at 2 p.m. Participating in the celebration will be a representative from each church in southern Morrow County.

The worship service prepared by women in Latin America reflects their concern for "Education for All of Life." The narrow bonds surrounding the word "education" have been released, and the definition spills out into every area of life.

Women in local units of Church Women United in thousands of communities across the country will prepare in advance for the World Day of Prayer service. Part of their preparation will be dedicated to an inquiry into the true meaning of liberation in a world in which millions starve

each year, millions live under repressive governments, and millions are deprived of a fair share of the earth's resources.

This will be the 90th year the ever-widening ecumenical celebration of World Day of Prayer. On this Day Protestant, Catholic and Orthodox women of many races and languages seek to make visible their unity in Christ and to share in an offering that will bring hope and aid to thousands around the globe.

In the United States the offerings go into a fund administered by the Intercontinental Mission Committee of Church Women United. Education has been a concern of participants in the World Day of Prayer from its beginning. Two dynamic church women established a day of united prayer after a visit to the Orient where they saw the great need of educating women and for Christian literature. In the early 1900s they raised \$3 million to strengthen existing Christian colleges and to found new ones for women in the Orient.

One-half of our offering will go to Church Women United for use in their program and one-half will stay here to be used locally.

1902 CITY OF HEPPNER

Heppner has justly gained the reputation of being one of the solid towns of Eastern Oregon. It is the county seat of Morrow county. Owing to the location and being the terminal branch of the Oregon Railroad & Navigation Company, it is a great business center for an immense territory, not only in Morrow County, but adjoining counties. People come from over 100 miles to trade. An immense amount of freight handled here not only for Heppner business men, but for the merchants and stockmen far into the interior. During the summer months almost every day in the week long lines of freighters come and go out loaded with goods purchased from Heppner merchants and freight for inland points. It is an interesting sight to see the freight teams of four to ten horses, with one and two wagons coming and going. The freighting business is a profitable industry and furnishes employment for a large number of people.
