## KINZUA NEWS

By Barbara Pike

Once again the big news this week in the Kinzua area is basketball, this time at Baker for the State "B" Championship. Despite our disappointment Friday night when the team seemed to be suffering from a bad case of tournament fever we were all very proud of our team and on Saturday night when they put it all together to take third place from Camas Valley. Saturday afternoon downtown Baker might have been the Kinzua Mercantile or the sidewalk in Fossil to judge by the familiar faces seen while doing some window shopping. Sunday most of the Wheeler fans returned home to dream of next year — maybe, just maybe we'll take home the top prize, but till then the record says third, we know our boys are TOPS.

Mr. and Mrs. Dan Bell went to The Dalles on Monday on business.

Mrs. Alma Cory, Mrs. Linda Nyseth and daughter Brenda went to Madras last Monday for medical attention and to do some business.

Mr. and Mrs. Harold Mangum and children went to Portland Friday to spend the weekend.

Bill and Patsy McMinn went to The Dalles Monday for medical tests.

Mr. and Mrs. Don Pike went to Odell, Tuesday to spend the night with Grady and Margeret Rogers. Wednesday morning they went to The Dalles to be with Don's stepfather, Mr. George Austin, while Don's mother, Mrs. Evelyn Austin had surgery at The Dalles General Hospital.

Mrs. Iris Morley went to Hood River Saturday afternoon to visit her daughters Annie and Christine for the weekend.

The Troy Day family went to Pendleton this weekend to visit Troys mother, Mrs. Verdie Derrick. They went to Baker to see the final two games of the "B" tournament. On their way home they stopped in Heppner to visit with the Dick Sargents.

March 7, was Laymen Sunday at the Kinzua Community Church. Mrs. Don Cory was in charge of arrangements.

Mr. and Mrs. Doyal Hubbell, Charlene and Robbie went to Milton-Freewater Friday where Mrs. Hubbell stayed to visit at the home of her mother and stepfather, Mr. and Mrs. William Eldridge while the rest of the family went on to Baker for the tournament. Sunday they stopped in Hermiston to visit Mr. and Mrs. David Johnson. Mrs. Johnson is the sister of John Hawk, Kinzua. The Johnsons are former Kinzua residents.

Newlyweds Larry and Nancy (Benson) Christianson are now at home in Vancouver, WA., where Larry is employed.

Mr. and Mrs. Wally Bogart enjoyed a short visit with their son Steve Sunday. Steve returned to Baker Sunday evening where he is employed by Helicopter Logging.

Mrs. La Vina Conner spent the weekend in Baker visiting at the home of her father-in-law Mr. Albert Conner.

Mrs. Denna Reid and Derrina went to Hermiston Thursday to visit the orthodontist. While in Hermiston they had lunch at the home of Mrs. Reid's sister, Mrs. Shirley Peterson.

Mr. and Mrs. Steve Conlee and sons Rob and Scott went to Hermiston Thursday to visit several friends and relatives. While there they drove to Pendleton for the basketball games. They returned home Sunday.

Hershel and Betty Murdock went to John Day to attend the Range Management meeting at the Malheur National Forest headquarters. Mr. Murdock was at the meeting as a representative for the Oregon Bow Hunters.

Dave and Sue Mattison and their daughters Robin and Jodi went to Odell Saturday to spend the weekend at the Grady Roger's home. They also visited with the Herb Luper family.

Betty Murdock drove to Heppner Wednesday to take her husband Hershel for a doctor appointment. He is reported as doing well and has been released to return to work.

## Attention Farmers !!!

Last year some of our customers enjoyed a 5-10 bushel per acre increase with early spraying of Bronate over a late spraying of 24-D.

Bronate can be sprayed early while the weeds and grain are small. The grain only needs to have 3-4 leaves. Early spraying is the one that helps. Bronate can be sprayed in colder weather (any weather that your nozzles don't freeze).

Every day you delay in spraying your weeds, is costing you money. Kill them while they are small.

Act now, give us a call, 422-7254. We have a good stock of Bronate, Bucril, 24-D, and other chemicals.
