

At high schools

# Heppner, Ione get new shops

Students in Ione and Heppner High School shops will have new facilities this fall.

Both Morrow County schools are receiving new shop buildings, scheduled for completion by the start of school.

At Ione, the existing shop classroom, accommodating a full time shop and mechanical drawing program, was located in an area, 65 by 30 feet.

Student pressure in shop classes had steadily increased to the point that the existing shop was scheduled for six periods each day with over 100 students enrolled.

Arts and crafts, woodworking and metal working classes all were occupying the same shop with storage space at a premium. In addition, one class in small engine repair met in a custodial work room in the basement of the old grade school building.

The new building, being built by Amos Gaines, Construction of Burns, is located across Gooseberry Road from the main building and will be 100 by 50 feet. The old shop area will be revised into a band-music room.

The same size structure view is taken at Heppner where a new, 150 by 70 foot building is underway by Eastern Oregon Construction of Pendleton.

The need for a new vocational shop at Heppner has been evident for years, according to "Growing Pains", a report from the Morrow County School District.

The old facilities were inadequate in both size and structure. The size restricted enrollment and project size of the students.

The woodworking shop classes were housed in a

small, 24 by 30 cement room under the gym. A room of this size containing the necessary woodworking equipment does not leave adequate room for students to work on large shop projects.

The room was also a safety

hazard, due to overcrowding. Another serious problem that will be overcome by the new facility, was ventilation and the inability to clear the wood dust from the air.

Storage areas were almost non-existent.

The shop classroom was also separated from the shop and made it impossible for the instructor to provide supervision in both areas.

In the old facility, the agriculture students were housed

in the old combination shop building and furnace room located adjacent to the junior high. Aside from the inadequacy of the building, it did present several other problems. First, the building did not have a classroom so it was

necessary to handle classroom work in a separate building.

The second problem was that of transporting students from the high school building to the old facility near the junior high. That resulted in additional expense and classroom time loss.

The new facility provides all vocational equipment in one building plus a classroom.

A new vocational shop was included in the plans for the new Heppner high school that was constructed in 1964. However, bids submitted exceeded the available funds and the shop facility was not constructed.

## Horse show Sunday

Two new classes will be offered this Sunday during the 4-H Horse Show at the fairgrounds.

The Sunday, all day program, will include this year, English equitation classes and 4-H Trail classes, new this year.

The program starts at 9 a.m. Sunday with showmanship, trail classes, and colt lounging classes in the morning.

In the afternoon, western equitation, colt horsemanship and all around competition will be slated. After a dinner break, the evening classes offer English equitation and working horse hack classes.

Dick Hoppas, Prineville and Lora Potter, Madras will judge the event.

Ten smiling faces climbed off a bus last week, donning green cowboy hats.

Nine of them are Japanese students, visiting Morrow County on a 4-H Labo Exchange program. The tenth is the Japanese chaperone.

Families from Heppner, Ione, Lexington, Boardman, Umatilla and Irrigon greeted the visitors at Nomad Restaurant in Boardman and took them to their respective homes.

Plenty of smiles shown but few words were spoken as the Japanese youngsters were introduced to their Morrow County families. They will stay with their families for three weeks.

In Morrow County, families and Japanese youngsters are matched like this:

Yoko Miyakawa, the 39-year-old chaperone, is staying with the Don Bennett family near Heppner; Yuichi Harada, an 11-year-old boy, is staying with the David Jones family in Lexington; Motoko Hazama, a 13-year-old girl is staying with the Harold Baker family in Boardman; Mayumi Hosaka, a 16-year-old girl is staying with the John Gochner family in Heppner;

Yukio Koibuchi, a 15-year-old boy, is staying with the Louis Carlson family in Ione; Yoshio Matsudaira, a 14-year-old boy, is staying with the Desmond Witt family in Umatilla; Masahiko Mitsui, a 12-year-old boy, is staying with the Roger Palmer family in Heppner; Noriko Mizugaki, a 14-year-old girl, is staying with the Vern K. Evans family in Irrigon; Miki Murai, a 13-year-old girl, is staying with the Leslie Paustian family in Heppner; and Masayo Sagara, a 15-year-old girl, is staying with the Robert Abrams family in Heppner.

The Heppner Gazette-Times welcomes our visitors to Morrow County.

## Japanese youths arrive in Heppner

At county fair

## Cake baking, wheat use face contestants

County fairs in Oregon will soon be active and the Oregon Wheathearts will be placing the spotlight on Oregon wheat products by sponsoring two different awards highlighting Oregon wheat.

The Oregon Wheathearts is the women's auxiliary of the Oregon Wheat Growers League.

One award is the Cake Baking contest. This contest has been established for many years and each county winner travels to the Oregon Wheat Growers League convention in December to compete for the coveted state prize. Last year's winner was Mary Lou Wirth of Baker.

Cake baking contests are held at 11 county fairs... Baker, Gilliam, Jefferson, Morrow, Sherman, Umatilla, Union, Wallowa, Wasco, Yamhill and Polk. The contest at the Yamhill county fair is new this year. Contestants from Polk and Marion counties will compete at the Polk County Fair.

Prizes given at the county level are \$5 for first prize, \$3 for second and \$2 for third. Ribbons are also awarded.

The state prize, decided during the December 6-8, 1976 state convention held in Portland, is a top award of \$100 along with a trophy.

Another contest sponsored by the Oregon Wheathearts is for the 4-H multi-use baking contest. This contest is for the use of wheat products in baked goods by 4-H members.

The 4-H contest will feature wheat products such as ala or bulgur, whole wheat flour, wheat germ, cracked wheat, rolled wheat and whole wheat berry in a baked goods. A recipe must accompany entry.

There will be three winners in each county. These will be by age groups consisting of one award for seniors, one for intermediates and one for juniors. A prize of \$5 will be awarded along with a ribbon. All 4-H girls and boys in Morrow County are eligible to enter the Wheathearts baking contest. Information on contest is on page 82 of county fair premium book.

Copies of rules for both contests are available at the County Extension offices or may be found in fair premium book.

A standard cake recipe, Lemon Wheat Cake, is used for the cake baking contest and is printed here.

Promotion of wheat products is important, according to Mrs. Larry Snyder, Condon, chairman of the Oregon Wheathearts. She points out that the Oregon Wheathearts have been active in several Bake-A-Ramas throughout Oregon this past year. Morrow County Wheathearts president Mrs. Charles (Bev) Doherty, Ione, will be in charge of the local contest.

### WHEATHEARTS 1976 OFFICIAL CAKE RECIPE

#### LEMON WHEAT CAKE

- 1 cup soft shortening (half butter)
- 2 cups granulated sugar
- 1 cups cake flour, sifted
- 2 1/2 teaspoons double acting baking powder
- 1 teaspoon salt
- 1-1/3 cup thin milk (half water)
- 1 teaspoon lemon extract
- 1 teaspoon vanilla extract
- 4 egg whites, stiffly beaten

Preheat oven to 350°

Sift flour once, measure; add baking powder, and salt. Sift three times.

Cream butter & sugar, beating until light and fluffy. Add flour mixture alternately with milk, beginning and ending with flour. Beat after each addition until smooth.

Add flavorings. Fold in beaten egg whites.

Bake in 2 greased, wax-paper lined 9 x 14" round layer cake pans for 30 - 35 minutes. Cake will shrink away from the sides of the pan slightly.

\* If using single-acting baking powder, increase baking powder to 4 teaspoons.

#### SATIN FROSTING

- 2 egg whites
- 1/4 cups sugar
- 1/4 teaspoons light corn syrup
- 1/3 cup orange juice
- 1/4 teaspoon salt

Combine all ingredients in top of double boiler and beat 1 minute with electric or rotary hand beater.

Place over boiling water and cook, beating constantly until mixture forms peaks (about 7 minutes)

Remove from heat. Add 1 teaspoon grated orange peel; 8 marshmallows cut in quarters; and enough yellow food coloring to tint delicately.

Beat for 1 or 2 minutes until partially cooled and marshmallows are melted.

## Paving sizzles as money ends

The paving contract completed by the L.W. Vail Co. of Hermiston, was accepted by the Irrigon City Council in their July meeting Tuesday night.

Two streets running east and west were paved. Available money did not permit paving as much as had been anticipated. Council members agreed that monies received, from state street funds that come from gas and license revenues are not keeping up with street needs and other funds must be found to improve and maintain the streets.

Councilman Bill Cooley said he had heard numerous complaints about noisy motor bikes creating disturbances. They are especially annoying to elderly people and to those who are ill. It was agreed that stricter controls must come.

A zone change to permit expansion of the Ted Wilson Mobile Home Park. The change was from Residential to Commercial. Concern was expressed by adjacent land owners as to the bearing on the adjoining properties and land values and tax increases which have already escalated.

A request was made by Mr. and Mrs. Al Partlow for access to their property on 7th Street. This street south of the highway has never been

officially vacated but since it has not been in use structures have accumulated and some city work will be required to give access to the property. The recorder was instructed to write a letter to those affected to remove their fences and materials.

A request from the Fire Department was presented by councilman Cooley that fully automatic controls be investigated to be installed on the city pumps. At present, it is necessary for someone to adjust them several times daily, according to the amount of water used. Contractors will be contacted on this.

Mayor Chester Wilson reported that excessive sprinkling is being done and care should be exercised to conserve water during the hot summer months. Sprinkling should be done during the morning or early evening for most efficiency.

While trying to repair the vertical pulley with the combine motor running, Don Evan's left hand was seriously injured. Evans was taken to Pioneer Memorial Hospital for treatment and then flown to St. Vincents Hospital, Portland, by Dr. Gifford.
