

WHAT WE'RE ALL ABOUT

Kinzua

Corporation

Working with you
to better
your land and enjoy
the great land.

Providing Employment For Morrow County Families

With our Heppner plant, we now employ 358 people in the vicinity of \$5,000,000 annually. Because our people are important to us and their welfare, we've recently instituted a program of providing cash rewards to employees with the best safety record. Here Wayland Hiatt, a member of the Kinzua maintenance crew, sits with the television he won through the safety awards program.

...slowpitch softball team. This
...ed second in a tough, 12 team
...and third in the city tourney.

andy Stuchell, Harry Kennison.*

Investing In Our Environment

At Kinzua Corporation, we practice the latest methods in forestry. We consider ourselves to be environmentalists, contributing not only to the economy but to our natural surroundings. Like you, we want the forest and wildlife to be around a long time. A new tree farm lease is available to ranchers that offers long range forest improvement programs as well as guaranteed annual payments for the lease. Information is available at our Heppner or Kinzua Mills.
