

## Extension Events... with Birdine Tullis

### Union Pacific Scholarship Applications Due January 18

4-H members who will be graduating from high school next spring should obtain application forms for the Union Pacific Scholarship from the Extension office, or their school counselor immediately. The completed form, a copy of grade transcript indicating students rank and number in class, as well as any other information required on the application form, should be returned to the extension office by January 18, as a committee must review the forms before sending to the 4-H state office.

The scholarship of \$400 may be used by those winning the award, for any course of study leading to a bachelor's degree in any accredited, degree-granting college or university. The award must be used the fall term or semester immediately following graduation from high school. Eight scholarship awards are given to students within the seventeen counties in Oregon served by Union Pacific Railroad.

### A Gift to 4-H

Once upon a time there was a small winter recreation area called Arbuckle Mountain in the mountains above Heppner. This area was a special place to many 4-H members and others! It was an easily accessible, inexpensive place to learn to ski and enjoy the winter wonderland. Many people worked long and hard, donating hours of labor maintaining the area, teaching 4-Hers to ski, and make the area available to anyone. But,

alas, like many other good things in life...the burden of maintaining the area, safety requirements, costs of replacing equipment, lack of use and lack of funds... caused the project to be discontinued. The once busy slope is once again covered with brush and trees.

As a fitting end to the Arbuckle story...when Arbuckle Mountain Ski Corporation recently cleared their books and finalized accounts, they had a net value of \$63.91. This amount was donated to the Morrow 4-H Council for use as they desire. 4-H appreciates the gift, as 4-H members and others appreciated the many hours of fun and learning they enjoyed at Arbuckle...and offer a special thanks to those of the corporation!

### 4-Hers Learn About Government

The 4-H members who braved the snow and ice to learn how county government operates were graciously received by everyone in the courthouse. Judge D.O. Nelson greeted the group, shared history of the courthouse, and briefly introduced the members to some of the responsibilities of those in the county government. Members then toured each office and were given insights on what is performed in each department...even a look at the now partially dismantled jail!

We appreciate the time and thought of each in the courthouse who helped make it an informative and pleasant afternoon for 4-Hers!

Heppner High School Sophomore Garth Powell concentrates as he takes one of a battery of tests put out by the Department of Labor to be used as counseling aids.

## Sophomores tested

Sophomores in Heppner High School, Ione High School and Riverside High School recently completed a battery of tests put out by the U.S. Department of Labor designed to aid high school counselors in guiding students in curriculum and career choices.

Nine aptitudes were measured in 12 separate tests including form perception, spatial, verbal, clerical perception, arithmetic reason, computation, finger dexterity, manual dexterity and motor coordination.

John Edmundson, assistant to Morrow County School District superintendent, said that there was 100 per cent participation in the three high schools with about 130 sophomores taking the tests administered by school counselors. Results of the tests will be

discussed with students in both individual and group sessions by the counselors and used to guide students by showing strength and weaknesses in different areas.
