

X-Ray Fund reaches 80% total

Eighty per cent of the total \$27,243 due on the X-ray equipment already installed in the Boardman Clinic was paid last week to the General Electric Medical Systems Division in Spokane.

Of the \$21,794 paid, \$14,000 was contributed by Portland General Electric and \$6,300 came from the X-ray Fund. At its meeting on Wednesday, April 12, the Morrow County Court approved expenditure of

\$1,494 from the county contingency fund to pay the remaining amount needed to meet the contractual obligation. According to terms of the contract with PGE, 80 per cent of the cost of the X-ray

equipment was due on delivery and the rest due on installation. Since the equipment is already installed, the remaining \$5,448 must be paid in the near future. While a small amount of

money remains in the X-ray Fund and additional contributions have been pledged, more donations are needed and may be directed to Mrs. Joe Bartlett, chairman of the fund drive, in Boardman.

Irrigon population rates 28% jump city council told

Announcement was made at Irrigon's April Council meeting, that the official city census had been certified at 515. This represents an in-

crease of approximately 28 per cent over the previous 400 certified. The increase is of importance in that a substantial

amount of city revenue received is based on census numbers.

An ordinance governing disposition of abandoned vehicles on city streets and alleys was adopted. Vehicles left on streets for 24 hours will be tagged and towed to storage and sold by the city if not redeemed within the time limits set.

Discussion on opening California Avenue on the city's southern boundary between Ordinance Road and West 2nd Street centered on that portion lying west of 1st Street which is outside the city. County cooperation would be needed for that portion belonging to the County. Second St. West would then be opened between California Ave. and its intersection with Highway 730.

The purpose of stressing improvements to these streets, is that adequate access will be completed and available for the new Junior High School to be constructed south of California Avenue off 1st Street.

A request for vacation of all streets within their trailer court was made by Ted and Mary Wilson. The streets were originally dedicated by them and adjacent land owners when the trailer court was formed. Unnecessary through traffic has become a definite safety factor according to Wilson. Return of jurisdiction would give better control of traffic within the court. The petition was tabled for further study of the matter.

An annexation hearing was set for April 25 covering approximately 28 acres west of First Street, north of and including half of the old railroad bed, and 19 acres belonging to Joel Stahl.

A hearing was also set for same night on city involvement in Community Development projects through Dept. of Housing and Urban Development (HUD) grants.

Senior volunteers are honored

Eight participants in the Retired Senior Volunteer Program (RSVP) were honored at a "Spring Thing" Recognition luncheon at the Neighborhood Center in Heppner on Thursday, March 30.

Ila Albert, Clarence Driscoll and Irene Anhorn received pins for volunteering 100 hours to such community services as the hospital, library, museum and Neighborhood Center. Fifty hour certificates went to Eddie Gunderson and Justine Weatherford, while Eula Bloodsworth, Anna Johnson and Irene Padberg were given 20 hour certificates.

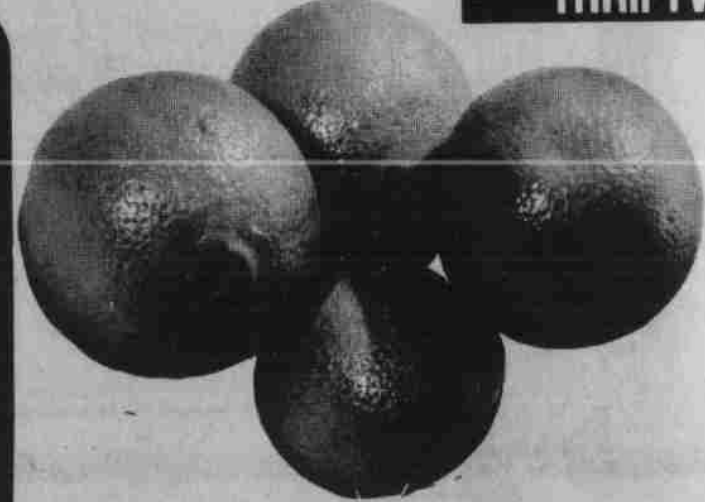

Sprouting seeds as a nutritional food was demonstrated by June Wagner of the Umatilla RSVP, and alfalfa and radish sprouts were included in the luncheon menu. Mrs. Wagner also brought along a display of fresh wild flowers currently in bloom.

Also in the program was a slide presentation of Eastern Oregon birds taken by Steve Brownsfield, Heppner High School biology instructor.
