"Honest & Sincere Representation"

I am sincerely interested in serving you . . . The citizens of District 55. I believe my more than 20 years of residence in the district, my employment in the district and my interest in the district best qualify me to serve as your Representative.

I'll make one iron-clad promise to you. I promise to be your spokesman and servant. I have already started plans for a correspondence list from the district and several coffees where you, the people, can express your concerns to me.

I do not look to government for my decisions. I believe that government has become too large and involved with the personal lives of the individuals in this district and the state. I believe the best way for a representative to be effective is to work with the people in his district. Local people should have major input in finding solutions to concerns and problems.

I truly believe that together, we can make an impact that will put government back in its proper role . . . as our servant, not master.

I want to try but I need your help to do it.

*Truly yours,
 Bill C. Bellamy*
