## Lunch a disaster

**By Lana Reed**  
School Lunch a Disaster—At Heppner, Oregon October 23, the disaster started in the cafeteria. It always gets a bigger disaster. The teachers are trying to find a way to stop the kids making the disaster. Everytime they get in the cafeteria they start throwing the food around and it gets to be a big disaster. Why do they do this? They want to make the teachers get mad and they don't like to sit around and wait to go outside. The janitor was getting tired of cleaning up the disasters the children are making, so she suggested that every teacher watched and whoever they saw throwing the food and making the disasters have to help clean it up and write ditties. The janitor couldn't think of anything else, so they all agreed on this.
