

# NATIONAL FUTURE FARMERS OF AMERICA WEEK

FEBRUARY 18-24

## Future Farmers To Feed The World's Millions....

Our future depends on the commitment of these young people to agriculture and animal husbandry. These are the farmers of tomorrow who will produce the food we eat. Through the latest technological advances in the sciences of agriculture and animal production, these young people will be the agri-business men and women of tomorrow. We extend a hearty thanks to these young people during National Future Farmers of America Week.
