We've got a lot
to offer.

★ Price comparisons were taken on products listed, generic or house brands used where not otherwise stated. Comparisons were made over a three-day period of time with a pre-determined product list. The products were priced in at least two stores in each town, with the lowest price used in the comparison.

COSTS of shopping out-of-town.

Not only are prices on comparable products very similar, there are other costs in shopping out-of-town.

Gas, wear-and-tear on your vehicle, and lunch for example cost more than most shoppers would even think of saving. For instance, a shopping trip to Hermiston—for a vehicle getting 20 mpg—takes four and-a-half gallons of gas, at today's prices more than \$3.50. Tire wear, oil and vehicle maintenance add another \$2-3 to the trip and lunch is probably going to cost \$3.

The result is—if you're shopping out-of-town to save money—your savings on groceries and other items must total \$8.50 or more for that to happen.
