## Sawmill breaks July production record for Kinzua Corp.

The day and swing shift production crews at the Kinzua Sawmill in Heppner have surpassed an all time production record at the plant, handling 5,002,000 board feet of lumber for the month of July.

Operations Manager Harry Kennison expressed appreciation on behalf of the management of the Kinzua Corporation, "I want to commend the sawmill crews for achieving their production goals."

Kennison said the bugs are

being worked out of the new sawmill which opened up last year, improving running time and decreasing the down time of the assembly line.

Signs noting the production record have been posted in the cafeteria and sawmill floor.

In August, 1978, the new computerized sawmill opened.

Personnel and Safety Manager Dan Sweeney said the production record is the result of team effort and hard work by the day and swing shift workers.

### Motorized glider flies over Heppner streets

A motorized hang glider piloted by Rick Peterson of Ione created some excitement Sunday night about 8 p.m. in Heppner.

Peterson's yellow glider could be heard by onlookers throughout his estimated 20 minute flight and people stopped to watch the 22 year old glider pilot circle the city.

His mother, Mrs. Robert Peterson, said Monday that Peterson took off and landed from the Heppner High School field. When he landed he was greeted by some of the observers.

Peterson was enjoying his day off from the wheat harvest as a combine operator.

Mrs. Peterson said the craft is now powered by a Soar-master motor which allows him to cruise at 35 miles an

hour and stay up 20 minutes in the air.

Peterson competed in the national hang gliding championships last year on the east coast but was unable to qualify in the regionals this year.
