

Security at home.

When you remember the old homestead, your thoughts usually drift back to the security it brought you...it was home.

The Bank of Eastern Oregon was founded on the security of home, community, town, county. We are home-owned, your friends and neighbors are stockholders in The Bank of Eastern Oregon and we are dedicated to keeping your money at home. To make it work for you, not a large metropolitan area hundreds of miles away.

We are helping you to make your community a better place to live and offering the services of your home-owned bank in Heppner, Ione and Arlington.

There's no security like the security of home.
