

Fifth annual Five Day Plan to stop smoking to air Sept. 8-12

The fifth annual Five-Day Plan to stop smoking will be broadcast on public TV on Monday through Friday, Sept. 8-12, from 6 to 7:30 p.m., to demonstrate that smokers can, indeed, quit—especially when they see others do it. Residents in Morrow County area will be able to watch on their local Oregon Educational and Public Broadcasting Service Station.

Viewers can join in the program by obtaining Kits at \$3 each at Pioneer Memorial Hospital in Heppner. A stop-smoking team from Portland Adventist Medical Center—Ronald O. Franke, M.D., an otolaryngologist, and Harold O. Burden, M.P.H., director of health education at the center—will present program guidelines. Frank Bonema, ex-smoker and Portland-area TV announcer, will serve for the fifth year as host and anchorman. A toll-free line will be available for telephone calls.

A "preview" session will be broadcast on Friday, Sept. 5, with the showing of the film, "Let's Call It Quits," featuring Tom Bosley, from 7 to 7:30 p.m. on your local OEPBS Station. A half-hour followup telecast is also scheduled from 7 to 7:30 p.m. on Monday, Sept. 15, when the studio group will report how their first weekend on their own has gone.

There were 31 buyers and 72 consignors representing 7 counties at Thursday's market.

Market Trend: Cows were in good demand with feeders also selling readily. We were lacking in real good quality. Some of the buyers went home with no cattle. A larger run of cattle next week should help the market.

Next Sale: Thursday, August 28 at 12:30 p.m. We are expecting a good run of cattle.

Thank you, John B. Kirby

Compare the Audi 5000.
It may be your best value in a luxury European sedan.
Audi 5000 gives you the performance, comfort and luxuries you expect in a fine European sedan, at a price far lower than you'd expect to pay. The interior provides a spacious, sumptuous setting for five adults. Upholstery is rich cut velour. Instrumentation is complete down to the precise quartz crystal clock. And the highly accurate CIS fuel injection system and front wheel drive combine for an EPA estimated mileage of 17 mpg, 30 estimated highway mpg.
Compare these estimates to the "estimated mpg" of other cars. Mileage varies with speed, weather and trip length. Actual highway mileage will probably be less.
Even today you can still get good value in a luxury European sedan. If you know where to look. Our place.
