Local cattle owner elected to Angus Assoc.

Kyle Broderick, Lexington, has been elected to membership in the American Angus Association, reports Dr. C.K. Allen, executive vice-president of the national organization with headquarters in St. Joseph, Missouri.

The American Angus Association, with some 38,000 active life and junior members, is the largest beef cattle registry association in the world. Its computerized records include detailed information on nearly 10 million registered Angus.

The Association records ancestral information and keeps records of production on individual animals for its members. These permanent records help members select and mate the best animals in their herds to produce high quality, efficient breeding cattle which are then recorded with the American Angus Association. Most of these registered Angus are used by the U.S. farmers and ranchers who raise high quality beef for U.S. consumption.
