

Great Decisions '81 program offered nationally

by Birdine Tullis
Extension Service

GREAT DECISIONS '81

Great Decisions is a nationwide program annually, which offers citizens a chance to

express their views to the nation's decision makers. Topics to be explored in the Great Decisions '81 program are: "From Cairo to Kabul," "China After Normalization," "South Africa," "Central

America," and "World Food Supply." Other topics will be "The World in 1981," and "Made in the U.S.A."

There are a number of ways to participate in the Great Decisions program. You can

participate your way by: Reading a book as briefing material for your own information; participating in a discussion group; attending lecture series on the topics in areas where program is offered in

this manner; or in some cases the program is available for credit at colleges or universities. Any group or individual interested in the program will find information available at the extension office which

includes order form for materials.

IFYE PROGRAM LACKING FUNDS

Two Eastern Oregon girls will be traveling abroad as International Four-H Youth Exchangees next year, if additional funds are found to

assist with expenses of the program. Marie Rietmann, Condon, was chosen as Oregon's only IFYE representative, with Allison Hansell as first alternate. A number of counties expressed concern that only one IFYE from Oregon would be involved in

the international program. It has now been decided that Allison will also go abroad if \$750 more in donations is made to the program. If any club, group, or individual would like to make a donation (any amount), more information on address, etc., is available at the extension office, phone, 676-9642.

IFYE RETURNEE TO VISIT COUNTY IN FEBRUARY

Alan Kolibaba, Portland, who just returned from West Germany where he spent six months living and working with farm families, will report to Morrow County on his experiences as an International Four-H Youth Exchange representative. Alan will be here to visit schools, groups, and clubs on Feb. 18 - 21. Anyone wishing to schedule his time should call Birdine at 676-9642.

SEWING TO FIT

The Extension Family Living Program for 80-81 includes a special workshop on pattern alteration, or sewing to fit. The program as proposed at this time would include information on custom fitting a commercial pattern to your measurements, and additional information on proportion, line, design, and the illusion of fit, as well as news about new developments in patterns that require less altering. Instructors for the workshop will be Cheri Jo Carter, Union County Extension agent, and Birdine Tullis, Morrow County. The program is presently scheduled for March.

At this time we need to determine if there is interest in this topic, as a decision must be made soon whether to continue with the plans in Morrow County or postpone it until a future date.

If the topic is of interest to you, please respond to 676-9642 by Jan. 15.

CHRISTMAS DAY! WE WISH YOU A JOYOUS CHRISTMAS!

Higher loan levels set for 1980 reserve grains

Producers placing 1980-crop grains in the farmer-held reserve recently became eligible for special higher loan levels and interest on those loans will be waived as a result of President Carter signing the Agricultural Act of 1980.

Bob Bergland said wheat producers placing this year's crop into reserve will receive a \$3.30-per-bushel loan, compared to the \$3 loan level for wheat not in the reserve program. 1980-crop corn going into reserve will receive a \$2.40 loan, compared to the \$2.25 loan for non-reserve corn. Producers placing 1980-crop barley in reserve will receive a 12-cent premium above the \$1.83 loan level for non-reserve barley.

Producers with 1980-crop wheat, corn and barley already in reserve may request the higher price supports at their local county ASCS office, Bergland said. Reserve release and call prices are not affected by today's action.

The act also provides for a seven-cent reserve premium to the current oat loan level of \$1.16 per bushel and 14-cent premium to the \$2.14-per-bushel loan for non-reserve sorghum. However, oats and sorghum have already been called from reserve.

Bergland said the new higher loan levels for reserve commodities will help strengthen the reserve program.

"While crop prices are likely to remain very strong through this year, there will be years in the future when grain supplies will exceed current-year needs. This measure will make the reserve an even more attractive marketing alternative to producers when it is needed," Bergland said.
