

Transcontinental television was inaugurated Sept. 4, 1951, when President Harry Truman addressed the Japanese Peace Treaty Conference in San Francisco.

Recreation Report

The Umatilla National Forest has released the following weekly recreation report:

The fire danger on the forest is moderate.

DALE RANGER DISTRICT
Phone: 421-3311

Hours: 7:00 - 4:30, Mon.-Fri., 8:00 - 5:30, Sat. - Sun.

All trails are open, but travel may be difficult due to downed trees in some areas. Lake Creek, Silver Butte, Granite Creek, North Fork John Day, and Crane Creek Trails are maintained.

All roads are open. Road 10 between Olive Lake and Fremont Powerhouse is very rough. High ground clearance vehicles only are recommended.

Campgrounds: Campgrounds open are Tollbridge - water available, reduced service; Welch Creek - no drinking water, reduced service; Olive Lake - no drinking water, self-service; North Fork John Day - no drinking water, reduced service.

Fishing: Fishing is fair to excellent. There has been good luck with dry flies on Granite Creek and South Fork of the Resolation.

As the fire danger becomes higher, extra caution with fires and internal combustion engines is urged.

During this dry weather, dust from moving vehicles can be a hazard. Care should be taken because one can temporarily be blinded by the dust cloud after meeting another vehicle. Also, dust accumulation on the windshield greatly increases the chance of blindness when the sun shines on it at certain angles. Travelers on the back roads are urged to stop and let the dust clear after meeting another vehicle and to clean your windshield often, especially for early morning or afternoon driving.

HEPPNER RANGER DISTRICT
Phone: 676-9187

Hours: 7:45 - 4:30, Mon. - Fri.

Trails: Copple Butte No. 3052 is open, and Bull Prairie Lake No. 3056 is open and maintained.

Roads: All roads are open. County road into Penland Lake is now in good, dry condition although there are still some rough spots.

Campgrounds: Bull Prairie with 20 campsites and Fairview with five campsites are open.

Fishing: Fishing is poor at both Penland and Bull Prairie Lakes.

Smokey Bear has been spotted again. He was seen near Bull Prairie Lake and is watching for fires to put out along his way.

Fire equipment for woodcutters is a fire extinguisher, shovel, and a saw with a screen.

UKIAH RANGER DISTRICT
Phone: 427-3231

Hours: 7:00 - 4:30, Mon. - Fri.

Trails: All trails are open and maintained. Dead lodgepole falling across trails continues to be a problem. Round Meadow Trail No. 3155 and Big Creek Trail No. 6145 still have boggy areas that pose problems to horses and trailbikes. Please keep bikes on trails.

Roads: All roads are open, but only the major ones are maintained. Road No. 53, Western Route, has not been patched this year and is rough. Drive slow and carefully. Road 52, Ukiah-Granite Road, is dust oiled from the Forest Boundary to Mile Post 20.

Campgrounds: All campgrounds are open on a limited service basis.

Fishing: Big Creek, Winom Creek, and Cable Creek continue to produce lots of fish. While not big in size, they are numerous and easy to catch. North Fork John Day is slow fishing for all, except the "experts."

Some huckleberries and wild strawberries are showing up. This year's crop may be skimpy due to numerous frosty nights.

Hazards: Road 53 is very rough. Drive slowly. Road 52 has heavy logging traffic during the week.

There are an unusual number of fawns and elk calves this year and sightings are frequent. Due to the hot weather, best opportunities are the mornings and evenings. Please just look and not disturb these animals.

WALLA WALLA RANGER DISTRICT

Phone: 525-5500

Hours: 7:45 - 4:30, Mon. - Fri.

Attention Woodcutters: The fire precaution class to date is B as in Baker. The Umatilla National Forest is becoming dry - woodcutters should carry a shovel, fire extinguisher, and bucket with them at all times. For Class B days, woodcutters should stay and watch for fires one hour after saw shutoff.

Campers - Starting July 27 at 8 a.m., both Jubilee Lake and Woodward Campgrounds are closed. The closure is due to road paving work. The contractor will be applying fresh oil which needs time to cure. Both campgrounds are expected to reopen by Friday, August 7, but watch for a news release or call the Walla Walla Ranger District before making plans for that weekend.

Woodland and Target Meadows Campgrounds will be open and available for public use during this closure. Neither of these campgrounds are fee campgrounds. Since litter receptacles are not provided in these campgrounds, campers are asked to please pack their garbage home for disposal.

BMCC scholarship group hears financial report

Scholarships totalling \$23,845 were awarded to students attending Blue Mountain Community College during the 1980-81 school year, according to a report presented to the BMCC Scholarship and Development Association at its annual meeting July 22.

Included in the scholarship awards figures is \$18,779 in "flow through" awards which come from businesses and civic groups. These awards are made directly to students selected by the group members themselves.

The remaining \$5066 in scholarship monies comes from interest generated on principal held in time certificates. The principal is the result of money donated to the college and designated for the college scholarship fund. Scholarship recipients are selected by the college in cooperation with area high school counselors.

Officers of the scholarship and development association elected at the meeting include: Chris Lovgren, Boardman, president; Ted Forth, Pendleton, vice-president; and Evangeline John, Umatilla, secretary. Other members on the association board are: Terry Anderson, Pilot Rock; Delbert Leighty, Milton-Freewater; Gene Pierce, Heppner; and Don Madsen, Hermiston.

The board voted to have Jack Warren, BMCC business manager, investigate the possibility of moving scholarship funds currently kept in open savings accounts to short-term investment accounts with the hope of realizing a higher interest rate on that money.

The board reviewed the results of the president's survey mailing which had been authorized by the association at its last annual meeting. The survey identified the names and addresses of persons in the two-county college district interested in serving on college committees or otherwise interested in becoming involved in the college activities.

The list of respondents added to the list of persons actively involved in the recent college budget election will serve as a strong nucleus of support for the college, the board was told. College President Ron Daniels says he plans to keep this group active through a college newsletter mailed several times a year.

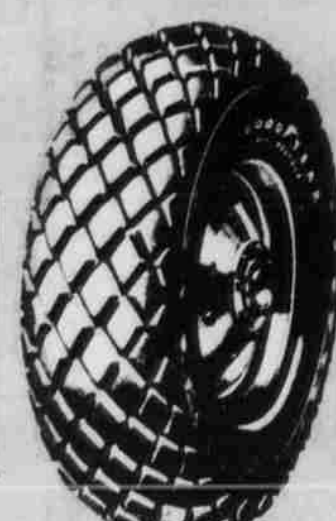

Other elective and appointive officers are associate matron, Ruby Becket; associate patron, Harold Becket; conductress, Susie Cooper; associate conductress, Katherine Lindstrom; secretary, Louise Wood; treasurer, John Wood; chaplain, Kenneth Smouse; marshal, Marilyn Childers; organist, Juanita Carmichael; Ada, Virginia Wilkinson; Ruth, Winifred Cox; Esther, Frances Smouse; Martha, Lota Tibbles; Electa, Anna Graham; warden, Glen Cooper and sentinel, Roy Lindstrom.

Following the installation ceremony potluck desserts were served from tables

PUBLIC NOTICES

The Morrow County Planning Commission will hold a public hearing on Monday, August 10, 1981 at 8:00 PM in the Morrow County Court House in Heppner, Oregon. A public hearing will be held on the following:

1. Application by Donald O. Robinson for a Variance, under Article 7, of the Morrow County Zoning Ordinance, to permit the establishment of a farm operation less than 160 acres within and Exclusive Farm Use Zone, Tp. 2S, Rg. 26, Section 35, Tax Lot 3700, located near State Highway 74, adjacent to the Urban Growth Boundary of the City of Heppner, Oregon. The purpose of this Variance is to allow a partition of 10 acres out of Tax Lot 3700.

Interested persons are invited to the hearing and express their views. Written signed statements will be considered. Reasons for approval or disapproval should be included in oral or written statements.

Gene Trumbull
Chairman
Morrow County
Planning Commission

Navyman returns from Atlantic

Navy Engineman 3rd Class Rocky J. Kautz, whose wife, Patty, is the daughter of Lloyd Gienger of Heppner, and Carol Gienger of John Day, has returned from a deployment to the North Atlantic.

He is a crewmember aboard the tank landing ship USS Fairfax County, homeported at the Little Creek Naval Amphibious Base, Norfolk, Va.

During the cruise his ship conducted independent operations off the coast of Norway, north of the Arctic Circle. They also rescued seven people in a small fishing vessel by providing a dewatering pump and patching the hull. Port calls were made in

Denmark, Germany, England and Scotland.

The Fairfax County is 522 feet long, carries a crew of 225 and can accommodate more than 350 Marines for amphibious operations. It is specially designed to transport tanks, heavy vehicles, engineer equipment and other supplies that cannot be landed by helicopters or landing craft.

CARPET CARE 7 STEPS FOR SPOT & STAIN REMOVAL

Step 1: Act Immediately. Most spills can be removed if immediate action is taken. The longer you delay, the more difficulty you may encounter in removing the stain.

Semi-solids should be gently scraped up with a rounded spoon or dull knife. Be careful not to damage the carpet. Blot liquids with clean white towels or tissues. Squeeze out as much moisture as possible.

You can either follow the steps in the order indicated or proceed to the step containing the same or a similar stain. Always pretest each solution first and keep mechanical action to the minimum.
