Certify crops by June 15

Farmers have until June 15 to report the sizes and intended uses of their wheat, oats, barley, rye and other fall-seeded small grains to the Agricultural Stabilization and Conservation Service (ASCS), announced the Morrow Co. ASCS office.

Fall-seeded crops which are not certified by the deadline will be ineligible for program benefits.

County ASCS official Judy Buschke said some farmers reported their small grains when they signed up for the 1982 acreage reduction program and some reported spring-seeded crops.

ASCS randomly checks farms to verify that acreage reports are accurate. ASCS also provides aerial photographs for farmers to identify their fields. "The acreage reports will be used to determine compliance with farm programs and will also serve as a basis for the 1983 program base acres for farms," Mrs. Buschke said.

To be eligible for price support loans, target prices and other program benefits.

Another supply of coldmix was produced with the county's pugmill this past week. It takes about one and one-half hours to mix a double tanker of asphalt into approximately 350 tons of patching material. This new coldmix has been very successful in helping to solve the county's pothole problem.

The bridge on Clarks Canyon was constructed at a total cost of \$14,024.67. This compares to \$127,682.00 on (plus \$9,813.00 for engineering and \$62,880.00 (plus \$11,450.00 for engineering on two comparable bridges that were recently built by outside contractors. This all steel and concrete structure should be maintenance free for many years.

farmers who participate in the 1982 program are required to report the actual planted acreage, on a field by field basis. "Farmers who did not sign up for the program could benefit

also by certifying their planted acreage because the 1983 base acres will be based on the certified 1982 acreage," Buschke said.

Morrow County farmers who have not certified their

fall-seeded crops are urged to do so by June 15. Buschke stressed.

The Heppner ASCS office is open from 8 a.m. to 5 p.m., Monday through Friday.
