Around About
By Justine Weatherford

By this time in September you may have yourself pretty well scheduled for fall and winter activities. If you are not completely programmed—get with it and don't be caught without plenty of action to fill the months between gardening and food preservation and the time when planting gardens begins again.

Our off-the-main highway communities provide a good variety of things in which family members of any age may become involved. Back in pioneer days almost everything worthwhile that got done in a community was done by volunteers. Today the volunteer movement is on the upswing again and is providing a happy, healthy way to keep occupied and to bring cheer to others, too.

Men or women who enjoy children will find that their help is greatly appreciated by the Scouting programs and by the Campfire and Bluebird groups. Sharing time and talent with one of the many excellent 4-H groups is a great way to gain satisfaction. For some years volunteers have been giving help in the elementary school reading program. They gain joy by giving personal attention to children who need more concentrated attention.

Your memories of the county fair should still be quite fresh. That big annual, all-county production requires many volunteers and much advance planning. Helping with the fair can be a real learning experience and a great chance to meet new folks and to form new friendships. Along with the fair, the horse shows and the parade and rodeo couldn't exist without volunteer management and many helpers.

If you like associating with senior citizens and helping with their activities, you can surely be useful before, during and after the senior meals on Wednesday noons at the fairgrounds. If you can find time to visit at the Nursing Home in the lower level of the Pioneer Memorial Hospital, your friendship and cheerfulness can brighten the days of some often lonesome folks there.

Being a volunteer at the Heppner Neighborhood Center gives persons a chance to really help others who need a temporary lift or aid in an emergency. This busy place receives and dispenses needed clothing, emergency food and much helpful advice and assistance.

The Neighborhood Center also offers sociability at its Thursday afternoon craft times. Women of any age are invited there to visit and to create craft items under skillful instructors. This is a good place and time to make friendships and to get acquainted with the Neighborhood Center and those who have been helping there through the years.

There are many clubs and lodges in South Morrow Co. If youa re intersted in joining any special group, you need to make your desire known to someone already in the group who can tell you about any requirements the group might have. Maybe you have a good idea for beginning a new club.

If your family is involved with horses, you will soon find that you and your horses can join others here with the same likes. During summer months the Heppner Swim Team needs support and help which means advance planning during the winter or early spring. Little League ball regularly needs adult help and support.

Card playing of many sorts is around most of the year. Several bingo evening groups are usually scheduled each week during the winter months.

The public library at Heppner is always pleased to have volunteer help during weekday afternoons from 1 to 5 p.m. or on Saturdays from 2 to 4 p.m. So, if you like books and people you might give some time to the library. The county museum curator says that just now she has plenty of volunteer help. If you are interested in learning of pioneer matters and building a good background in area and state history you might inquire about Morrow County Historical Society membership.

Blue Mountain Community College has announced the schedule of classes being held here and elsewhere this fall. Registration takes place next week. Those who want to move ahead educationally should study the good variety of learning opportunities. Two afternoons each week Adult Basic Education classes are held in the Neighborhood Center. What a good opportunity to complete high school or to just improve some basic skills.

Sports-minded persons find that golf, tennis, bowling (with help from a new instructor), billiards and, of course, jogging, hiking, bicycling, much fishing and much seasonal hunting are all very available here.

If your sporting activity tends to be the spectator type, then you should keep schedules of the Heppner and Ione school sports handy. You might become a steady booster for one or more girls' or boys' teams.

Our county has a fine number of very helpful churches. If you have not been attending one of them, this is an excellent time to begin. Every age is most welcome. Each church provides good leadership. Often there are groups within the church that offer special enjoyment for family members; the choir, Bible study groups, children, youth and adult activities. Men and women are always needed to carry on many activities in the churches.

You've undoubtedly heard the saying "The devil finds work for idle hands." That may not appeal to you—but the idea of keeping active is a very good one. A special friend pointed out to me "If we don't ever get involved, don't ever try to help other folks—nobody will miss us when we are gone." I believe her. She is a person who will surely be missed as she is constantly helping others.

Arts Council sponsors CAST program

The Pendleton Arts Council is sponsoring a program, CAST, designed to develop more community support for the visual and performing arts in Pendleton, announced a council spokesperson.

On Saturday, September 25, there will be a donation - art auction at 8 p.m. at St. Mary's Parish Hall, 800 S.E. Court, Pendleton. There will be many art items plus a variety of other donated merchandise and-or services.

Admission to the auction is free. Cash and checks will be accepted for auctioned items. Bill McPherson will be the auctioneer. There will also be refreshments and a no host wine table, the spokesperson said.

Artists or craftspeople are invited to donate artwork to the auction. Items should be taken to St. Mary's Parish Hall on Friday, September 24 between 5 and 7 p.m. Donation slips will be provided by the Pendleton Arts Council.

Proceeds from the auction will go to the CAST Program that will bring Dan Diggles, an actor from New York City to the Pendleton community during the week of October 11. Mr. Diggles' visit will be highlighted with a performance on October 16 at the Vert Auditorium.

Any questions should be directed to Nancy Canon, 276-1203 or Cynthia Crumpton, 276-7478, co-community organizers for CAST.

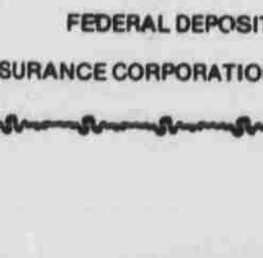
KISS YOUR BABY



You can't help but kiss your baby.
He's so lovable. So wonderful.
And, he needs you so much.

That's just why we ask you to "kiss your baby". If he should have cystic fibrosis, he needs you to do something about it.

One of the signs of cystic fibrosis, the most serious lung-damaging disease, is a salty taste of the skin.

If you taste salt on your baby, see your doctor.
Make sure your baby has a test for CF.

Chances are your child does not have CF. but if he does, diagnosis and immediate treatment are vital to his life.
