

Heppner District experiencing shortage Firewood cutting to be permitted

"Personal use firewood cutting will be permitted in both free-use and charge areas during the coming season," said John Lowe, Umatilla National Forest supervisor.

He pointed out that woodcutting consumed an estimated 30 million board feet of Forest timber and residue over the past year and the demand is expected to continue. On the Heppner District alone five and one half million board feet were cut. This

equals 11,000 cords. If this were converted into logs or lumber it would equal 1,000 loaded log trucks with enough wood to construct 450 average size homes.

He explained that charge permits will be required in those areas where the demand for firewood has exceeded the supply. Free-use woodcutting will continue to be permitted in areas where there is an excess of firewood material.

Areas experiencing shortages include the entire Heppner and Pomeroy Ranger Districts, portions of the Walla Walla Ranger District and the northern portion of Ukiah Ranger District. Within these areas, firewood will be on a charge basis as designated by the respective district rangers.

Generally, there is an excess of dead lodgepole on the eastern portion of the Dale District and the southern and western portions of the Ukiah District. The northeastern portion of the Walla Walla Ranger District also has a surplus of firewood material. These areas will continue to offer firewood on a free-use basis in designated areas. While there appears to be a surplus on the Heppner District, it is estimated that this will be gone in about five years at the present rate of consumption, Lowe said.

Free-use permits will be available on a self-service basis from Ukiah and Dale Ranger Districts and the supervisor's office as in past seasons. Heppner Ranger District will attempt to have free use areas open most of the time. These areas will be logging and thinning residue and the quality of wood will not be as good as that in the charge areas.

Charge permits will be available during normal work hours at all offices. Initially, the Pomeroy, Walla Walla and Heppner ranger districts plus the supervisor's office will also be open from 7:30 a.m. to 1:30 p.m. each Saturday for issuing charge permits. Continuation of these hours or changes will depend upon demand.

Cattle quarantine provisions expanded

Agriculture Director Leonard Kunzman has expanded quarantine provisions involving cattle shipped to Oregon from Idaho because of the spread of a scabies infestation in the neighboring state, announced the State Department of Agriculture.

In an order signed February 17, Kunzman said the quarantine would be in effect against movement of Idaho cattle into Oregon.

Cattle from the area could be brought into Oregon only if they are dipped in approved chemical solutions under provisions set forth by Oregon Department of Agriculture rules.

The scabies infestation affects only cattle and is caused by a tiny mite which burrows into the animal's skin. Infestations cause

severe itching and sores on the animals and can spread quickly if the animals are not dipped.

The initial outbreak in Idaho resulted in quarantine measures by Oregon officials on January 28. Recent spreading of the problem in Idaho prompted the expansion of the quarantine zone, the department said.

Livestock operators who need information on the quarantine or on dipping procedures can contact their private veterinarian or the department's Animal Health Division in Salem at 378-4710.

MORROW COUNTY SCHOOL DISTRICT NOTICE OF ELECTION

Upon the question of levying a tax for the purpose of funding the school district budget.

NOTICE IS HEREBY GIVEN THAT an election will be held on March 29, 1983 between the hours of 8:00 a.m. and 8:00 p.m. The purpose of the election is to submit a tax levy to the voters for the purpose of funding the school district operating budget for the 1983-84 school year.

If this measure is approved \$3,721,565.00 of the taxes levied in the 1983-84 fiscal year are eligible for partial state funding. However, \$689,027.00 of the taxes will be totally funded by the local taxpayers without any partial state payment.

The purpose of the entire amount to be voted upon is to provide funds for maintenance and operation of the school district which cannot be provided within the district's tax base of \$700,923.00.

The total levy will result in an estimated tax rate of \$7.30 per \$1,000.00 of true cash value, exclusive of the tax for bonded indebtedness.

Under the charge system, firewood will be sold for \$2.50 per cord. There will be a \$10 minimum charge for each permit. This minimum charge will provide for the removal of four cords. Permits are available for a maximum of 10 cords per household each year. Money collected from the charge system will be used to make additional wood available in areas where shortages now exist.

"Signing of woodcutting areas, furnishing maps, opening roads and administration of the woodcutting program are expenses that can no longer be borne by our appropriated budget," Lowe explained.

"Although we will be charging in some areas, an abundance of free wood is still available but it will be farther from town," Lowe said.

"I would be interested in hearing any comments you may have concerning the availability of firewood. It is an important energy source many people depend on and our intent is to help meet that demand while recovering some of the cost of the program," he said.
