

LU.C.C. auction to feature wide variety of items

Marilyn Rietmann shows items she has donated for the LU.C.C. auction.

USDA seeks public comments

Deputy Secretary of Agriculture Richard Lyng is asking for public comment on possible provision of the 1984 wheat program, announced the Morrow County Agricultural Stabilization and Conservation Service. The deadline for comment is June 6.

Although the statutory deadline for announcing the 1984 wheat program is August 14, Lyng said he plans to give details well in advance of that date to allow farmers additional time to make program decisions.

Lyng said he will study the public's recommendations and the most current data on U.S. and world crop conditions and supply and demand before he makes final decisions, the local A.S.C.S. office said.

Comments are requested on: the loan and purchase prices, the target price and national program acreage; whether USDA should establish an acreage reduction or a set-aside program, and if so, the percentage of acreage adjustment; whether there

should be a payment in kind program, and if so, the provisions of the program; whether USDA should establish a voluntary acreage reduction, and if so, the level of such a reduction; provisions governing allowance of haying, grazing and conservation usage of set-aside acreage; a land diversion program and payment for land diversion; offsetting compliance requirements for an acreage reduction program; and methods for determining 1984 crop acreage bases for wheat.

Lyng also asked for comments on provisions for a farmer-owned reserve, commodity eligibility, premium discounts, the establishment of county rates and all other provisions necessary to carry out a loan and purchase program for wheat.

Comments should be sent to: Director, Analysis Division, USDA-ASCS, room 3741, P.O. Box 2415, Washington, D.C. 20013.

than 100 business people volunteer for these faculty posts each year, he said, providing attending students and teachers an opportunity to meet, visit and learn from those who make the decisions that affect the marketplace.

"The experience goes a long way toward changing opinions and attitudes in the course of expanding economic understanding," he said.

In addition to experiencing life on a college campus, everyone attending has a unique opportunity to participate in business decisions. Students and teachers are assigned to small companies, select goods or services to produce and elect their own executives to run those firms. Through computer simulation, those companies compete for profitability — an exercise that generates intense enthusiasm, Ward said.

Although most of the week — beginning early each morning — is consumed by lectures, seminars and discussion periods, students and teachers also visit nearby businesses and industries and take advantage of recreational facilities at the college.

OSU Extension specialist says

Advise children wisely about drinking and driving

How quickly the joys of graduation can turn to tears of grief when parents learn of an auto accident involving their child and alcohol.

The problem of teenage drinking and driving increases at this time of year, warns Marcelle Straatman, Oregon State University Extension human development specialist, despite the best efforts of schools and parents to combat the problem.

Teenagers aren't scared by the horror stories; they believe it can't happen to them, she says. Restrictions of choice of friends and use of cars by parents often have little effect since youngsters are on their own once they are out of the driveway.

Nearly 10,000 young motorists are killed each year in accidents and another 40,000 are disfigured. Teenagers are high risks because of their inexperience in both drinking and driving.

One part of the problem is the use of alcohol by adults, Straatman said, where it's seen as fashionable and acceptable. At the same time, young people are told both by the law and their parents that they can't drink.

However, teenagers do drink. In fact, 85 percent of those between the ages of 12 and 18 who responded to a 1980 Oregon Governor's Commission on Youth Survey reported

using alcohol. Some had only tasted, but others said they use it all the time.

Most threatening to parents' peace of mind were the 35 percent who said they had driven while under the influence of alcohol and the 70 percent who said they had been in the car when the driver was intoxicated.

"Parents need to arm themselves with information covering all the myths and facts about alcohol consumption you can find," Straatman said, "and then find a relaxed time to discuss the situation with their teenagers."

The OSU Extension specialist urges parents to remember that "you aren't asking for confessions or reports about who does and who doesn't drink. You know the adolescent isn't able to control the situations, but you want to share ideas about drinking and driving."

The parent's goal is to prevent a son or daughter from drinking and driving or riding with someone who has been drinking. No matter how the discussion rambles, it's important for the parent to stick to this goal, she said, while emphasizing your concern about their safety and listening to what the young person has to say.

Having made it through these treacherous years with

two sons herself, Straatman said she found two approaches that worked for her.

The first was to make sure her sons knew that she trusted them and the second was for them to know that she would come get them from any place at any hour if they or their

driver had been drinking, with no questions asked.

"Teenagers are quick to accuse parents of not trusting them," Straatman said. "However, my response was always the same: 'I trust you, but I don't trust all those other crazy drunks out there.'"

Nagging or one-shot discussions will not resolve the drinking situations teenagers will encounter, but "when they can count on you as being on their side, freedom of communication about sensitive issues is easier," Straatman emphasized.

Heppner girls apply to attend business week

Nancy Martin and Cammie Papineau of Heppner High School are scheduled to receive expense-paid scholarships to attend the fourth-annual Oregon Business Week this summer at Monmouth campus of Western Oregon State College. Business Week is to be held July 31 through August 6.

The two Heppner students are among 300 sophomore and junior students and 60 teachers who are scheduled to receive \$150 scholarships, said the OBW Chairman O.D. Ward, a General Telephone company executive from Beaverton.

Finance Chairman Robert Richter, Grantree Corp. of Portland, reports more than \$56,000 in scholarship purchases so far toward a 1983 goal of \$100,000.

Similar to programs being offered in nearly a score of other states, Oregon Business Week is jointly sponsored by Associated Oregon Industries, the State Department of Education, Oregon Council on Economic Education and WOSC.

Curriculum for the fourth-year renewal of the event this summer includes basic economic principles, the current and future status of Oregon's economy and preparation for business careers and career opportunities. Faculty is drawn from corporate executives and small business people throughout the state, who give Business Week students and teachers first-hand knowledge of the world of work and what it takes to keep it working, Ward said. More

than 100 business people volunteer for these faculty posts each year, he said, providing attending students and teachers an opportunity to meet, visit and learn from those who make the decisions that affect the marketplace.

"Most students and teachers who attend Business Week have only had the opportunity to know about our economy from a consumer's standpoint," Ward explained. "After attending Business Week they understand the economy also from the point of view of those who produce goods and services."

"The experience goes a long way toward changing opinions and attitudes in the course of expanding economic understanding," he said.

In addition to experiencing life on a college campus, everyone attending has a unique opportunity to participate in business decisions. Students and teachers are assigned to small companies, select goods or services to produce and elect their own executives to run those firms. Through computer simulation, those companies compete for profitability — an exercise that generates intense enthusiasm, Ward said.

Although most of the week — beginning early each morning — is consumed by lectures, seminars and discussion periods, students and teachers also visit nearby businesses and industries and take advantage of recreational facilities at the college.

Extension Study Groups elect new officers

By BIRDINE TULLIS
Program Assistant

Morrow Co. Extension Service

Newly elected officers of the OSU Extension Study Groups in Morrow County were officially installed recently in a ceremony conducted by Dorothy Klock, O.E.H.C. president and Lucille Straughn, district director.

The officers assume leadership in the spring but most events of their official terms

begin in the fall. Officers are: Jeri McElligott, president; Anita Orem, vice-president; Debbie Morgan, secretary. Pine City - Lavonne Mader, president; Nancy Myers, vice-president; Marilyn Perkins, secretary. Rhea Creek - Mary Ella Moyer, president; Mildred Wright, vice-president; Mary Wright, secretary. North Morrow - Isabel Jones, president; Cindy Malone, vice-president; Velvet Cox, secretary.

NOTICE OF BUDGET HEARING

A meeting of the Board of Directors will be held on June 14, 1983, at 7:30 p.m. at Boardman City Council Chambers. The purpose of this meeting is to discuss the budget for the fiscal year beginning July 1, 1983, as approved by the Boardman Cemetery Maintenance Dist. Budget Committee. A summary of the budget is presented below. A copy of the budget may be inspected or obtained free of charge at Boardman City Hall between the hours of 9:00 a.m. and 5:00 p.m.

The budget was prepared on a basis of accounting consistent not consistent with the basis of accounting used during the preceding year. Major changes, if any, and their effect on the budget, are explained below.
