**PIK means income... and taxes!**

Let Edward D. Jones & Co. show you the right tax-free investments to protect your PIK dollars.

This year, the federal government has taken some of the guesswork out of farming with its Payment-in-Kind program. They've guaranteed a certain amount of commodity you'll have available to sell. Sounds good, doesn't it?

But here's something else they've guaranteed — you'll still have to pay taxes on that PIK income.

So, this year, while your production costs are down and while you've got some guaranteed income, let Edward D. Jones & Co. show you how to keep those PIK dollars in your pocket — with careful, conservative, tax-free and tax-advantaged investments.
