Letters to the Editor

May 13-19 National Police Week

To the editor
 President Reagan has declared May 13-19 National Police week. During this time, we honor those men and women who daily risk their lives to protect us from violent crime.

The Congress should show its gratitude to these officers by passing the Law Enforcement Officers Protection Act. This legislation, sponsored by Senator Daniel Patrick Moynihan and Congressman Mario Biaggi (a 23-year veteran of the New York City Police Department who was wounded 10 times in the line of duty), would ban the manufacture and sale of cop-killer bullets—ammunition designed to penetrate the bulletproof vests worn by police. The bill would also require a manda-

tory jail sentence for using cop-killer bullets in a crime.

Handgun Control has joined the nation's police in urging Congress to pass this common-sense measure. Already 200 Senators and Representatives have endorsed the bill. But the National Rifle Association has launched a multi-million dollar campaign to defeat the measure.

We urge citizens across America to contact their legislators during Police Week and ask them to support the cop-killer bullet ban. It's time the Congress stood up to the misguided N.R.A.

Ballot box tampering?

To the Editor:
 On 1,15,21 April & 6 May 84 I wrote to Norma Paulus, Secretary of State - Oregon, indicating it had come to my attention the Ballot Box Computers used in tallying votes break down in the middle of the night during ballot counting and the Constitutional issues lose by morning even though ahead the night before. Norma Paulus was advised I knew the computers were checked one week before the election and just prior to starting the counting by a citizen's group. However, in the middle of the night when the computer breaks down—there is no citizen committee to monitor the computer repair! I asked the Secretary of State for the Jurisdiction for the Ballot Boxes not safe guarding, not providing safeguards against tampering

with the Votes, and received no answer. On May 6 84 I wrote to Norma Paulus demanding the Jurisdiction for precluding the Sovereign Citizens and also set up an alternate Citizen's Computer to count ballots to safeguard against Ballot Box Tampering, furthermore, if within 5 days the demanded jurisdiction for preclusion of citizen involvement was not forthcoming in writing, the citizens would proceed as best they see fit.

Norma Paulus has been advised all elected officials should be either impeached or recalled for any violations of Oathe of Office, or for voting for any measure which violates the U.S. or Oregon Constitution's Constitutionally yours, (s) R M Finley, N.D. Tigard, Oregon

An authentic replica of an Indian totem pole was raised last week at the upper end of Cutsforth Park on Herren Creek. Orville Cutsforth carved the 32 foot totem pole over the past four months and it is a nearly exact replica of the famous pole which stands in a park at Vancouver B. C.

Over 200 pounds of choice beef steaks and roasts disappeared from the Kenneth Smouse meat locker at an Ione store recently.

"The sheriff's office has been sniffing out all leads which might come from frying steaks, but to date there is no trace of the elusive beef."
