AAUW scholarship awarded

Shirley Ann Campbell has been named as the winner of a \$300 American Association of University Woman Scholarship.

The scholarship is awarded each year by the Heppner-ione branch of the A.A.U.W. to a Morrow County woman "who has a definite plan of study." This year's committee was particularly impressed by Campbell's "need and desire to finish her qualifications to teach," said the Rev. Cathy Barker, chairperson of the committee.

Campbell is currently attending Brigham Young University in Provo, Utah where she is working toward a degree in elementary education. She already has a Bachelor of Science degree in Communication Disorders.

According to her husband, Steve Campbell, Morrow County Extension Agent, her plans tentatively include student teaching at Heppner Elementary school this fall.

When malted milk was first invented, it was known as Diastoid. The year was 1882.
