

Becks awarded September Yard of Month

Lone Garden Club members have selected the yard of Alan and Karen Beck for the September Yard of the Month Award.

Following the tradition of her father Karen and her husband Alan have worked to make a diversified and beautiful garden at their home on the corner of Third and C Streets in Lone.

In the ten years since they had the house built they have added new flowers, shrubs and trees annually. Karen's father has helped her start two rose gardens.

This year they also have added hanging baskets on the patio and

special honeysuckle vine which her father had sent from Mississippi. Since the house sets on a corner, the whole yard can be seen, so it requires a great deal of plantings, said a spokesperson from the garden club.

There is a vegetable garden on the back line and berries on the west as well as one of the rose gardens. A privet hedge on one side with dwarf marigolds makes a nice picture for the passer-by concluded the spokesperson.

Both of the Becks are teachers - Alan at Heppner and Karen at Lone. Their two children Michelle and Daniel attend school at Lone.

Students to meet college reps

Parents of high school students are invited to attend a visitation program by representatives from Oregon's state colleges and universities at Riverside High School, September 26, 1984, at 1 p.m., said Heppner High School counselor Helen Flanagan.

The program is an opportunity for interested students and parents to receive first-hand information about course offerings, admission requirements, housing, costs to attend, financial aid, scholarships, and other information important in planning for college.

A general presentation on the State System will be followed by individual college sessions staffed by representatives from Eastern Oregon State College, Western Oregon State College, Oregon Institute

of Technology, Oregon State University, Southern Oregon State College, and the University of Oregon.

The Oregon State System of Higher Education college visitation program reaches almost all public and private high schools in the state. The program's goal is to stimulate and guide post-high school planning by students and provide them with an introduction to the programs and services of the state colleges and universities.

Parents are urged to discuss post-high school plans with their sons and daughters before and after the visitation program. Interested students will be bussed from both Heppner and Lone high schools according to Flanagan and Lone Principal Chuck Starr.

Garden Bugs pick Yard of Month

The Lexington Garden Bugs chose the yard of Dale and Carol Baker for September Yard of the Month. The Bakers have lived at 365 W. Main for over 20 years.

Their simple, but beautiful yard is a joint effort. Carol's favorite spot is the front yard with plant islands of shrubs, plants, stumps and rocks.

The lawn is always kept mowed

and weed free with the adjoining lot equally well kept, said a spokesperson for the Garden Bugs.

The have a garden in the back that supplies them plenty of tomatoes, onions, peppers and corn.

This yard is one that always looks nice no matter what season it is and is very worthy of this award concluded the spokesperson.

Hellums final Heppner Yard of the Month

By JUSTINE WEATHERFORD

The attractive home of Virden and Rose Hellums is located at 315 South Court St. on the east bank of Willow Creek. Their yard has been named the last Heppner Yard-of-the-Month (Sept. 15 to Oct. 15) for 1984 by the Heppner Garden Club.

Although the retired Hellums travel during the months from November to April, they have called Heppner and South Court St. home since 1972 when they started building their house there. Virden was a building contractor, and the Hellums formerly lived in American Falls, Idaho.

Their smaller front yard is very nice now with many thriving roses and petunias, however, their main garden is at the back of the house along the creek. There a graceful arrangement of weeping birch and other trees offers a little shade to the

large flower-bordered patio. Along the low wall of the patio they have large pots of cactus, various succulents and blooming petunias. The lovely, weed-free lawn which slopes down to Willow Creek is brightened with colorful plantings of marigolds and petunias and is made especially interesting by the display of several antique gardening implements—a large, old wheelbarrow and a walking plow, both of which are now covered with blooming plants.

The Hellums' daughter Elizabeth who attended Heppner High School for four years, helped with the arranging and planting of the family yard. She is now married to Bill Burke and living in Roseburg.

The three Hellums came to Heppner partly because Rose's brother Orval Matheny and his family are longtime Heppner residents.

Cub Scouts organize for fall

Cub Scout Pack 661 will hold its first meeting of the year Monday, Sept. 24, 7 p.m. at the Heppner Elks Club.

All Cub Scouts and boys aged 8 - 10

years interested in becoming Cubs are encouraged to attend. Each boy must be accompanied by a parent, said a spokesperson for the Pack.

Grieb Angus takes blues at state fair

Judging has been completed for the beef cattle division announced a news release from the Oregon State Fair. Blue ribbon winners include: Grieb Angus, Lexington - junior bull calf, March junior yearling bull, senior champion bull calf, and junior champion bull.

Youth group to hold BBQ

The Heppner Ecumenical Youth Group will kick off a new season Wednesday, Sept. 26 with their annual Barbecue at the Rev. Ed Watts' home, 6:30 p.m., announced a spokesperson. All young people are invited to come and bring their own meat and other goodies.

WIC to meet Tue.

There will be a Women, Infants and Childrens (WIC) clinic held Tuesday, Sept. 25, 9 a.m. to noon at the Heppner Neighborhood Center, announced a center spokesperson. Clients are asked to call 676-5873 for an appointment if one hasn't been made.

NEW Tordon 22K.
Stops Bindweed & Canada Thistle on Fallow Grainland.

Now you can use TORDON® 22K Weed Killer in your normal summer fallow rotation. You don't have to designate areas as "non-cropland." You can spray weeds anytime of the year, when they're big or small, and when you have the time.

TORDON 22K kills the whole plant. It's not just a burn-back herbicide. TORDON 22K translocates all through the plant and deep into the root system to kill the whole weed. Gets bindweed and Canada thistle, and virtually all your other tough broadleaf weeds at the same time.

It can make you more money. Bindweed roto-weeding is greatly reduced. Harvesting is smoother. Grain is cleaner. And yields are bigger without the weed competition. The result, of course, is better profits.

Put an end to weeds that rob you of profits. Stop in today!

Tordon 22K.
It's mean to tough weeds!

Second Pettyjohn reunion slated for Sat. & Sun.

The second Pettyjohn reunion has been scheduled for Saturday, Sept. 22 and Sunday, Sept. 23 at McKay Creek Community Park in Pendleton. A spokesperson for the family requests that all families bring utensils, beverages, and food for the potluck.

Those who are staying over will find RV spaces available at the park. The Oregon Trail Room at Indian Hills Red Lion has been reserved for a no host breakfast Sunday, concluded the spokesperson.
