

'Make It With Wool' contest winners announced

Left to right: Karen Keith, Tammy McMichael, Meloney Anderson, Makayla Hamilton and Melissa Moon. Not pictured: Heather Hutchinson.

With more than 30 entries in the district 'Make It With Wool' contest, Saturday, Oct. 20, the competition was intense, said Ruth McCabe, District Director.

Heading up the list of winners were two junior competitors and one senior, who will be traveling to Portland to compete in the state contest. New this year was the rule that a third could be chosen to attend if competition surpassed 30 participants in the district.

Senior division winner, Karen Keith, Hermiston, modeled a smoke

blue suit of 100 percent wool, with velveteen accents on collar and suspenders. The little boy look was carried out by the waist length jacket with shoulder emphasis, tapered pants with this fall's popular shaped waistband and the suspenders. A softly tailored blouse with ruffled eyelet trim was Karen's own design.

Alternate in the senior division is Tammy McMichael, Helix, who modeled a sophisticated dark turquoise 100 percent woolen suit with single button closing.

Heather Hutchinson, Helix, junior

division winner chose the popular menswear look of pin stripe grey for her double breasted coat dress. The sophisticated look was complimented with red accessories.

Runnerup in the junior division, Melanie Anderson, Pendleton, will also compete in the state contest in her lavender vest and plaid skirt ensemble. The semifitted vest with accents of plaid complimented the front-pleated skirt and sort lavender crepe de chine blouse. Junior alternate is Makayla Hamilton, Hermiston, who modeled knit- ted outfits.

Pre-teen winner, Melissa Moon, Pendleton, received a sheepskin as her award. Beth Silva, also a pre-teen, received honorable mention for excellence in construction skills.

A classic herringbone tweed outfit of blazer and split skirt earned winning honors for Roberta Anderson, Pilot Rock, in the adult division. Fashions modeled were creative and carried out many popular fall-winter trends, commented Ruth Boyd, North Powder, one of the six judges involved in the contest. She also noted the good judgement and fashion know-how of all the contestants, as well as excellent fabric and pattern coordination. Good use of accessories and other principles involved also impressed the judges, Boyd said.

The district contest and fashion show, under the direction of Ruth McCabe, Ione, was held in Heppner, October 20th. Sponsors of the contest are the Wool Growers Auxiliary, numerous businesses involved with the wool industry, and many local businesses and individuals. In addition, at the state contest, contestants receive many valuable prizes such as Bernina sewing machines, scholarships, fabrics, etc., in addition to winners receiving paid trips to the national contest.

Prior to the public fashion revue, participants, parents and friends gathered for a no-host salad luncheon.

Narrators for the fashion show were Birdine Tullis, Morrow Extension Service, and Cheri Jo Carter, Union County Extension Service. Awards were presented by Mrs. McCabe.

In addition to the special awards for winners, each participant received an award, and a tiny handmade sheep ornament.

The 'Make It Yourself with Wool' contest in District 11 (Morrow, Umatilla, Gilliam and Wheeler counties) has grown in popularity in the past four years from only 8 or nine contestants to over thirty this year. Mrs. McCabe thanked all sponsors of the district contest as she announced her retirement as director, and urged the continuation of the contest.

Crop Report

Oregon potato growers are expected to harvest 22.3 million hundred-weight (cwt.) of potatoes in 1984, up 8 percent from the 1983 production and 6 percent above 1982. An increase in acres for harvest this year more than offset lowered yields expected for this year's crop. Acres for harvest at 55,000 acres is up 13 percent from 1983 while the expected average yield at 406 cwt. per acre is down 21 cwt. from last year's average of 427 cwt. per acre. Washington expects to harvest 55.9 million cwt., up 3 percent from 1983. Idaho production is estimated at 85.9 million cwt. just fractionally below 1983. United States output for fall potatoes is forecast at 310.0 million cwt., 5 percent above last year's production and fractionally above the 1982 U.S. fall potato production.

Oregon's all hay production for 1984 is forecast at 3.3 million tons, 7 percent above a year ago. Of this total, 1.98 million tons are alfalfa and alfalfa mixtures and 1.37 million tons are other types of hay. United States production is set at 154.1 million tons, 9 percent above last year's level.

Oregon hop growers expect a total of 7.0 million pounds to be taken from 4,900 acres. This is 31 percent below last year's production of 10.0 million pounds. Nationally, hop production is forecast at 57.0 million pounds, 16 percent lower than a year ago.

Sugarbeet production in Oregon is expected to total 325,000 tons, 3 percent above the 316,000 tons harvested last year.

Oregon apple growers anticipate harvesting 135.0 million pounds of apples, 13 percent below the 155.0 million pounds harvested in 1983. Washington's apple production is expected to total 2.85 billion pounds, 5 percent below the 3.0 billion pounds harvested in 1983. Nationally, apple production is estimated at 8.2 billion pounds, 1 percent lower than last year.

Prune and plum production in Oregon is estimated at 19,000 tons, 32 percent less than last year's production.

Oregon's filbert production is expected to total 13,700 tons, 71 percent more than the 1983 crop, but 26 percent above the 1982 crop. Washington's crop is expected to total 300 tons, compared with 200 tons harvested last year.

Volleyball was invented in a Holyoke, Mass., YMCA in 1895 by William George Morgan.
