Hunting season PUBLIC NOTICE dates set

Opening dates for many 1985 hunting seasons have been set by the Fish and Wildlife Commission. This is traditionally done in January as a help to those planning vacations. Closing dates, open areas, bag limits and other regulations will be set later in the year. The Commission will set 1986 opening dates in December, 1985 to further assist in vacation planning.

The controlled season for pronghorn antelope will begin on August 17 and the statewide bowhunting season for deer and elk will open August 24.

The general rifle deer season has been set to open on Saturday, September 28.

The commission continued the mid-week opening date for the first period Rocky Mountain elk season in attempts to shift hunting pressure back to the second period. The first Rocky Mountain elk season will open this year on Wednesday, October 30, and the second general season and Chesnimnus controlled elk hunt will open November 9.

Roosevelt elk season opening dates will parallel last year, the first period opening on November 9 and the second on November 16.

Opening dates for game bird seasons will be similar to last year. The seasons for band-tailed pigeons and mourning doves will begin September 1. White blue and ruffed grouse and western Oregon mountain quail will open August 31. The eastside valley quail season opens October 12.

Reduced chukar and Hungarian partridge populations, a result of winter losses, caused the commission once again to set a delayed opening date to coincide with statewide pheasant and eastern Oregon mountain and valley quail seasons. All of these will open October 12.

In addition to these opening dates, the commission also set general bear season regulations, a bear pursuit season and a limited spring bear season in northeast and western Oregon.

General bear season will open August 24 and extend through November 30. The bag limit will be one bear, except cubs less than one year of age and sows with cubs are protected.

Four spring bear seasons will take place in the Snake River unit and portions of the Santiam and McKenzie units. Two hundred ninety permits are authorized, with a bag limit the same as for the general bear season. The purpose for the season in the Snake River unit is to try to improve elk calf survival. The season was adopted in 1984 to see if removal of part of the bear population would improve calf elk survival. A significant number of bear were not taken in 1984 and permits are being increased. Spring bear seasons in western Oregon are an effort to alleviate tree damage by bear in specific areas.

Individuals interested in participating in spring bear hunts should apply on a postcard to the Oregon Department of Fish and Wildlife, P.O. Box 3503, Portland, Oregon 97208.

PUBLIC NOTICE

The district will accept bids on the following surplus property which is offered for sale, as is, in all instances:

- 6 sets of propane equipment for school buses, including in each set: 1 60 gal Manchester tank with mounting brackets.
- 1 air cleaner-fuel intake for 5" barrel carburetor
- 1 Garrettson fuel filter-vaporizer assembly
- 1 dual curve electronic ignition assembly
- 1 66 passenger school bus-1974 Ford

THESE ITEMS CAN BE INSPECTED AT THE RIVERSIDE HIGH SCHOOL BUS SHOP, BOARDMAN, MONDAY THRU FRIDAY, 9:00 a.m. - 4:00 p.m., February 1-15, 1985. CALL BILL ADAMS AT 481-7551.

Bids will be opened at 2:00 p.m. on February 15, 1985 and will be presented to the district board on February 18, 1985 at the district office, Lexington, OR.

Bids are to be sent or delivered in sealed envelopes plainly marked SURPLUS PROPERTY BID.

All bids are to be received by the Morrow County School District office, PO Box 368, Lexington, OR 97839 before the time and date specified above.

The school district reserves the right to reject any and all bids. Doyle McCaslin Superintendent Published: February 6, 1985

PIONEER MEMORIAL HOSPITAL SPECIAL MEETING NOTICE

There will be a special meeting of the board of directors to discuss external affiliation. The meeting will be held at 6:30 p.m. on Thursday, February 7, 1985 in the hospital solarium.

Before the Water Resources Director of Oregon Gilliam and Morrow Counties

IN THE MATTER OF INITIATION OF A CRITICAL GROUND WATER AREA DETERMINATION IN THE ELLA BUTTE AREA OF THE UMATILLA STRUCTURAL BASIN

PROCLAMATION ELLA BUTTE

The initiation of a critical ground water area proceeding is hereby proclaimed pursuant to OAR 690-10-050 in the Umatilla Structural Basin. The proposed exterior boundaries of this area, which include parts of Gilliam and Morrow Counties, are described as follows:

Beginning at the northeast corner of Section 13, Township 2 North, Range 25 East, WM; thence south along a line common with the proposed Butter Creek Critical Ground Water Area, on the east boundary of Township 25 East, to the southeast corner of Section 13, Township 1

North, Range 25 East, WM; thence west along the section line to the southwest corner of Section 18, Township 1 North, Range 24 East, WM; thence north to the northwest corner of Section 18, Township 1 North, Range 24 East, WM; thence west along the section line to the southwest corner of Section 11, Township 1 North, Range 22 East, WM; thence north along the section line to the northwest corner of Section 26, Township 3 North, Range 22 East, WM; thence east along the section line to the northeast corner of Section 30, Township 3 North, Range 23 East, WM; thence south to the southeast corner of Section 30, Township 3 North, Range 23 East, WM; thence east to the northeast corner of Section 10, Township 2 North, Range 23 East, WM; thence south to the southeast corner of Section 10, Township 2 North, Range 23 East, WM; thence east along the section line to the point of beginning.

This initiation of proceedings for the determination of a critical ground water area is brought, on the director's own motion, under ORS 537.730(a) and ORS 537.730(d). These statutes allow for such action when the director has reason to believe that

"Ground water levels in the area in question are declining or have declined excessively" per ORS 537.730(a), or

"The available ground water supply in the area in question is being or is about to be overdrawn" per ORS 537.730(d).

Preliminary investigation, as referenced in "Ground Water Conditions in Umatilla Structural Basin, An Executive Summary," has disclosed that recharge is being exceeded by pumping demand. Such conditions result in water level declines which will not equilibrate in the future. Water level declines have occurred and are occurring at rates which reflect this condition. The information in the studies referenced in the executive summary is the basis for the director's belief that conditions cited in ORS 537.730(a) and (d) exist in the Ella Butte area.

The ground water reservoir covered by this proclamation is herein termed the "Basalt Ground Water Reservoir." This reservoir, as further described in the studies referenced in the executive summary, includes all water contained in basalts of the Columbia River Basalt Group as well as any interbedded sedimentary deposits.

Prior to completion of the proceeding for determination of a critical ground water area, no application for a permit to appropriate water from the Basalt Ground Water Reservoir will be approved or denied.

Dated at Salem, Oregon, this 31st day of January, 1985.

This proclamation is effective immediately.

(s) William H. Young Director
