Before the Water Resources Director of Oregon Gilliam and Morrow Counties

**IN THE MATTER OF INITIATION OF A CRITICAL GROUND WATER AREA DETERMINATION IN THE ELLA BUTTE AREA OF THE UMATILLA STRUCTURAL BASIN**

**PROCLAMATION ELLA BUTTE**

The initiation of a critical ground water area proceeding is hereby proclaimed pursuant to OAR 690-10-050 in the Umatilla Structural Basin. The proposed exterior boundaries of this area, which include parts of Gilliam and Morrow Counties, are described as follows:

Beginning at the northeast corner of Section 13, Township 2 North, Range 25 East, WM; thence south along a line common with the proposed Butter Creek Critical Ground Water Area, on the east boundary of Township 25 East, to the southeast corner of Section 13, Township 1

North, Range 25 East, WM; thence west along the section line to the southwest corner of Section 18, Township 1 North, Range 24 East, WM; thence north to the northwest corner of Section 18, Township 1 North, Range 24 East, WM; thence west along the section line to the southwest corner of Section 11, Township 1 North, Range 22 East, WM; thence north along the section line to the northwest corner of Section 26, Township 3 North, Range 22 East, WM; thence east along the section line to the northeast corner of Section 30, Township 3 North, Range 23 East, WM; thence south to the southeast corner of Section 30, Township 3 North, Range 23 East, WM; thence east to the northeast corner of Section 32, Township 3 North, Range 23 East, WM; thence south to the southeast corner of section 32, Township 3 North, Range 23 East, WM; thence east to the northeast corner of Section 4, Township 2 North, Range 23 East, WM; thence east to the northeast corner of Section 10, Township 2 North, Range 23 East, WM; thence south to the southeast corner of Section 10, Township 2 North, Range 23 East, WM; thence east along the section line to the point of beginning.

This initiation of proceedings for the determination of a critical ground water area is brought, on the director's own motion, under ORS 537.730(a) and ORS 537.730(d). These statutes allow for such action when the director has reason to believe that

"Ground water levels in the area in question are declining or have declined excessively" per ORS 537.730(a), or

"The available ground water supply in the area in question is being or is about to be overdrawn" per ORS 537.730(d).

Preliminary investigation, as referenced in "Ground Water Conditions in Umatilla Structural Basin, An Executive Summary," has disclosed that recharge is being exceeded by pumping demand. Such conditions result in water level declines which will not equilibrate in the future. Water level declines have occurred and are occurring at rates which reflect this condition. The information in the studies referenced in the executive summary is the basis for the director's belief that conditions cited in ORS 537.730(a) and (d) exist in the Ella Butte area.

The ground water reservoir covered by this proclamation is herein termed the "Basalt Ground Water Reservoir." This reservoir, as further described in the studies referenced in the executive summary, includes all water contained in basalts of the Columbia River Basalt Group as well as any interbedded sedimentary deposits.

Prior to completion of the proceeding for determination of a critical ground water area, no application for a permit to appropriate water from the Basalt Ground Water Reservoir will be approved or denied.

Dated at Salem, Oregon, this 31st day of January, 1985.

This proclamation is effective immediately.
