The Morrow County CowBelles will present an informative and exciting program on the G.O. (Get Oregon-ized) Project, Thursday, April 25, 7:30 p.m. at the Heppner High School Cafeteria.

Schools have very little information about agriculture and timber. Much of that is inaccurate and out-of-date.

The Oregon "Agriculture in the Classroom" task force has joined forces with eight Oregon school districts and organizations such as the Oregon Beef Council and Women for Agriculture to develop materials to be used in the fourth and ninth grades including textbooks and computer software. This project is titled "Get Oregonized" (GO).

This is the year for state-wide adoption of Social Studies materials (next adoption year is 1991), we shouldn't miss this chance to sell the "GO" project. The Oregon Beef Council has already invested the funds - now is the time to make sure we get our money's worth. Be informed. Come to the meeting and learn about those new Oregon authored textbooks. It is very important that the agriculture story be told, and told correctly.

All of the Morrow County school teachers and staff are invited to attend this program, as well as the Morrow County Cattlemen, the Morrow County Wheat Growers and the Morrow County CowBelles.

Please join us. Take this time to share your ideas.
