

Heppner Happenings

By Mary Bryant 676-9493

Sue and Darrell Vinson of Butter Creek recently returned from a bus tour of several western states. Leaving La Grande early one morning, their first stop was Jackpot, Nevada, then on to Salt Lake City where they heard the Mormon Tabernacle Choir and heard an organ recital. The choir members were very impressive with the men wearing robes of blue and white. The music was truly magnificent. The tour continued on to the Arches National Park at Moab, Utah, which contained numerous arch formations; Bryce Canyon, Zion Canyon and the north rim of the Grand Canyon, where they spent one night and one night at the south rim. They had hoped for a mule ride to the bottom of the canyon, but found that reservations must be made three months in advance. Two nights were spent in Las Vegas with the last stop at Jackpot again and on home. At the small town of Bicknell, Utah, there was a restaurant famous for its pickle pie and pinto bean pie. The bus apparently stopped there on all of its trips. Mrs. Vinson tried the pickle pie which she found to be good, but different. Flowers were beautiful and plentiful on all parts of the tour.

Mrs. Mary Goheen left Portland from Union Station a week ago Saturday on a National Railway Historical Society's train trip. The route followed the Washington side of the gorge to Pasco, then on to Spokane where they spent the night. After a lovely buffet breakfast, they left Spokane where they passed the site of a train wreck that had destroyed a bridge last August. This was approximately six miles from Wenatchee. Lunch stop was at Leavenworth, the town that has been made to look like a Bavarian village. The flowers were beautiful and everywhere. The Autumn Leaf Festival is held here every year. The tour through the Cascades was very beautiful with the leaves beginning to turn color.

Not far from Leavenworth the train went through the Cascade Tunnel which is the longest train tunnel in North America, 35,000-foot long. Seattle was the next stop where more cars were added and the trip continued on down along Pudget Sound to Portland. In Portland there was a showing of 27 private train cars at Union Station. Among them was the one used by Cary

Grant and Barbara Hutton during their marriage. It was most interesting. Mrs. Goheen has a short visit with Connie MacCready, former mayor of Portland, who is the membership chairman for the Pacific Northwest Chapter of the National Railway Historical Society. She also had a telephone conversation with Jonathan Nicholas about the State of Eastern Oregon. He expressed an interest in mentioning the new "state" in his column in the Oregonian in Portland.

Lyle and Pat Jensen of La Grande visited with his parents the Lincoln Nashs, over the weekend. They also visited with his sister and brother-in-law, Maryann and Lee Palmer of Ione.

Mr. and Mrs. Don Christensen and daughter, Karline, were Heppner visitors this weekend. They visited with Bernice and Lincoln Nash and Hazel Bauman among others. Mr. Christensen also hunted with his father.

Mrs. Mary Schippers visited with her sister, Mrs. Pat Lankford on Monday. Her husband was hunting with a party at Pilot Rock.

Jim McConnell, son of Charles and Vivian McConnell graduated from basic training on Sept. 27. He will be taking training with the Military Police and in two months will be fully accredited.

Mr. and Mrs. Claude Graham had a recent guest Mrs. Coramae Ferguson of McMinnville, Mrs. Bill Anderson from Lake Oswego, and their granddaughter, Ann Damon. Also Ken Fox of Medford spent some time here.

Mrs. Vivian Elder reports that her son-in-law, Fritz Cutsforth, is recovering nicely from his recent heart attack.

Mrs. Mary Nikander, and Mr. and Mrs. Ralph Crum went to Fossil Sunday to a program at the Interdenominational Church featuring Herschel Thornburg. He is an artist and a musician and painted a picture while a song was being sung. He also plays the harp, marimba, trombone, clavichord, organ, bells and chimes. He and his wife are accompanied by John and Deedee Knaupp.

3 HHS grads pledge OSU sororities

Three Heppner High School graduates have pledged sororities at Oregon State University: Jodi Padberg, Alpha Gamma Delta.

Jennifer Huges, Alpha Omicron Pi; and Kimberly Hughes, Kappa Kappa Gamma.

United Way conducts first county-wide campaign

A large response from Portland General Electric employees has helped the Morrow County United Way reach 50 percent of their 1985 campaign goal. Morrow County United Way is an all-volunteer organization that supports local agencies for the people of Morrow County. This year they are conducting their first county-wide campaign with a goal of \$10,000.

people at the PGE coal plant have always been our best supporters and this year they have done even better. Other companies in the county are beginning to respond and with their help, we should be able to reach our goal.

Anyone interested in contributing or volunteering to Morrow County United Way may contact Bauska at 481-7047, Dave Hampton 676-9263, or Gary Tingley 481-9356.

Around About

By Justine Weatherford

One of my least favorite nights and mornings of the year—the time that plant-killing freeze held off until the night of the 27th and morning of the 28th. Many years it has come earlier in the month. Although I moan when the flowers and vegetables wither, all of us who live in the wonderful northwest surely feel fortunate not to suffer devastating earthquakes or terrible tropical storms which have been especially severe this fall.

Early this year, when it was still snowtime here, Inez Erwin and I had a most interesting look about sunny, colorful, historic Mexico, spending the longest portion of our tour in beautiful Mexico City, which some say is the world's most populated metropolis although others rank it second in size to Tokyo, Japan. For centuries the population centers of the world were closer to the Atlantic—now the shift has come to the Pacific regions.

This last week as I watched in horror the scenes of suffering and ruination in Mexico's capital, I kept remembering those wonderful, wide boulevards, the lovely parks and fountains and statues, the magnificent ancient and modern buildings we visited. I felt relieved some when I heard that the great, old cathedrals had survived the quake. I recalled our visits to the campus of the huge University of Mexico, to the superlative national museum, to the federal office building with their exciting murals by Diego Rivera. In the fine, modern, high-rise hotel where we stayed, our front window looked down on a central circle which featured a great monument honoring Columbus, and then beyond that we had a superior view of the beautiful city with its palm and flower-lined avenues and those spectacular snow-capped mountains in the distance.

On one of our in-city tours we were taken to the public flower market where masses of blooms were available at what seemed like give-away prices. Near that market we were shown where the city's huge, heavily-traveled subway system was being extended. A high point of that day's looking was being driven past the Mexican White House, the residence of President Madrid.

Late last week Heppner and much of Morrow was taken over by the annual surge of deer hunters. On Saturday afternoon, I chatted briefly with Mark Hopkins as he brought a nice-size buck into Central Market for cutting and wrapping. Mark said he got it on Freezeout Ridge. By Sunday I noted that the Elk's hide-collecting barrels around town were filling, actually several were overflowing with deer hides.

One of the many good things the Morrow County Historical Society has brought about is the publication of the annual Morrow County Chronicles. Late this summer the fourth volume was issued in its blue cover with Ione's Woolery House pictured on it. It shocks me to find that many local folks don't know about this publication which began in 1982 and which is an attempt to preserve stories and pictures about the people and events and everyday happenings of our area's past. Born during the U.S. Bicentennial celebration, the HCHS will hold its annual meeting at the Lexington Grange Hall next month. Delpha Jones has been its only president.

I'm already into playing my every-fall game with the falling leaves and the cooling wind. Each year I am determined to get my, too-large-for-me, yard clean up before Thanksgiving Day. As the now yellowing leaves drop from the big old Dutch Elms out in front of the house and smaller narrower leaves fall from the Weeping Willow at the rear, I struggle against the wind in trying to collect the seemingly millions of leaves and trundle them into the vegetable garden space where I hope they will help enrich next year's plantings.

An so the year rolls on and in spite of my dislike of the first freeze, I am glad to live where we have positive seasonal changes, and although I love the beauty of snowtime, I am already looking forward to springtime and the return of summer's warmth.

120 attend I.H.S. reunion

From far and near 120 Ione High School alumni came to renew acquaintances and reminisce the "good old times," when school days were a reality and not a memory, says Eva Hamlett of the September 1 reunion of the 1916-1939 I.H.S. graduating classes.

The registration committee of Katherine Lindstrom, Louise Keene, and Margaret Akers used a drawing of a covered wagon for name tags. Helen Crawford welcomed the arriving guests with punch, coffee, and cookies. After many informal greetings, the morning was spent in visiting. At 1 p.m., after Reverend Jim Howard returned thanks, a buffet dinner was enjoyed by all, continues Hamlett.

Dot Halvorsen, acting as Master of Ceremonies, heartily welcomed all those attending. The only teachers in the group were George Tucker and Frances Carlson. Mr. Tucker gave an interesting talk on how he happened to come to Ione the first time, and also of the interval between his second principalship here, says Hamlett.

A memorial tribute was given by Edith Matthews in honor of the 14 members deceased since the 1980 reunion.

Award for the woman coming the greatest distance went to Jeanne Dobbs from Hawaii; for the man went to Delbert Cool from Montana.

Rudisill joins Dobyns Pest Control

Jim Rudisill, 43, began working for John Jepsen's Dobyns Pest Control September 16. He and his wife, Marie, have been Ione residents for the past three years. They have two grown daughters and two daughters, Candy and Angie, at home.

After moving to Ione, Rudisill drove truck for a year and worked two years for an area rancher before going to work for Jepsen.

Dobyns Pest Control hosted a week weed tour by Monsanto and Tri-River Chemical on September 19 which was attended by about 40 area customers. Farmers toured test plots and saw demonstrations of the companies new chemicals.

A big lion

What lion measures as long as 13 feet, weighs over 2,000 pounds, and calls Alaska home? The Steller sea lion. According to a national wildlife magazine, upon birth, the sea lion pup is dropped by its mother from three or four feet upon the rocks. Apparently, it's the Steller sea lion's equivalent to a slap on a human baby's bottom.

Coach names Palmer, Curnutt

By Ashley Conklin

For the second time this season, Jason Palmer was chosen as defensive player of the week. He was first selected for his efforts against the Riverside High School Pirates September 13 and selected again this week for his performance in the Mustangs' 14-0 losing game with the Sherman Co. Huskies September 27.

The junior linebacker number had 14 tackles for 21 total defensive points. Two of his tackles were for losses. He also punted three times for 72 yards, a 24 yard average. Head coach Tim Birkby tabbed junior center Kevin Curnutt as offensive player of the week. "Kevin did a fine job in the middle of the line, opening big holes," Birkby stated. "We had 152 yards rushing, the most this season, due to fine blocking," the coach concluded.

W.C.C.C. Golf

Ladies Duffers
Wednesday, Sept. 25
Low gross- Doll Campbell
Low Net-Lota Tibbles.
Least Putts-Neoma Bailey.
Mystery Prize-Jo Pettyjohn.
There will be a no host meeting Wednesday, Oct. 9 at Kate's Pizza. Election of officers will be held. All members are urged to attend.

Over the Tee Cup
September 24
Low gross-Lois Hunt.
Low net-Lorena Jones.
Least Putts-Lucille Peck, Harriet Pierson.
Long Drive-Bev Wilson, Sharon Harrison.

Special Meeting
There will be a special meeting October 8th. All ladies are invited. Golf at 9 a.m. and a no host luncheon at 11:30 at Kate's Pizza. There will be election of officers for the coming year.

Adopt-a-Pet

This tan spotted medium-sized female puppy was abandoned in Heppner during the Fair and Rodeo. She is approximately 10 weeks old, and good with kids. For more information, phone the Pioneer Humane Society at 676-5159 or 676-5169.

Pioneer Humane Society has the following dogs available for adoption: border Collie cross, male approximately seven months; six terrier cross pups; young female Dobie-Shepherd, loves kids.
Various ages and breeds of cats are available for adoption.
The following pets have been reported to the society as lost: female Samoyan cross, tannish brown, long hair, has brown collar with red tag "Chelsie"; seven month old Springer Spaniel, white and liver; young female Dingo, salty and silvery looking; small Maltese house dog, white, female, has gold collar, 13-year old.
For further information, call the Pioneer Humane Society, 676-5159 or 676-5169.
