The program supplements the counseling program of Heppner High School by giving students first-hand information about program of study offerings, admission

The students volunteered to attend based on their career interests. They were given the opportunity to choose two of the state's schools whose session they wished to attend. Tuttle announces candidacy

Laurence A. "Larry" Tuttle announced his candidacy for U.S. House of Representatives, Second District of Oregon September 30.

"The needs of this District, and the impacts of the federal government on its citizens, are far too great to be content with continued caretaker representation, or to be satisfied with the last two congressional campaigns in the District. It is not a

time to be cautious in a District that is little-known among Oregonians, let alone in Congress," he said in a recent news release.

"The people of this District want, need, and deserve a Representative with both the experience and willingness to work hard enough to see that their needs are given first priority. This is why I have chosen to seek this office, and this is why I believe I will be elected."
