Mayor proclaims "Lights On" for peace

The idea of lighting a candle to dispel the darkness is centuries old, says a news release from the Ecumenical ministries of Oregon. The act of lighting a candle is symbolic of the hope for a new beginning. "Lights On For Peace," began in Oregon and is gathering world-wide momentum. The Bishops and Executives of Ecumenical Ministries of Oregon started a call for a symbol of hope during the forthcoming talks in Geneva between President Ronald Reagan and Premier Mikhail Gorbachev. That effort has now spread to the World Council of Churches, National Council of Churches, the United States Catholic Conference, The National Rabbinical associations, Oregon Senator Mark Hatfield and Oregon Representative Les AuCoin who are sponsoring a Resolution that will call for a display of such hope. Governor Atiyeh has issued a proclamation designating

LIGHTS ON • FOR PEACE

Letters to the Editor

Bob Smith supports Reagan's arms race

To the Editor:
Bob Smith continues to put us deeper in debt by supporting Reagan's arms race. His latest act was to vote against a bill to cut 12 excess MX missiles from the President's budget that no one claimed were of any value for national defense. We could have saved \$1.7 billion.

Our huge expanding deficit is the main cause of high interest rates and the overvalued dollar, which have damaged the Oregon economy. And the arms race is the main cause of our expanding national budget. Those unnecessary MX missiles would not have passed the House if

the two Smiths from Oregon had voted against them, for the vote was very close.

Bob Smith talks the deficit reduction line to get elected, but he has been consistently part of the problem. He is Oregon's gift to the Pentagon and the military-industrial complex, rather than a representative of the people of Central and Eastern Oregon.

Correction

Some incorrect information was submitted last week concerning the evening benefit card party which the senior citizens have scheduled for tomorrow night, Thursday, Nov. 14.

The committee in charge states that the admission donation will be \$2 instead of \$1.50 as previously stated. Also everyone is asked to come before 7 p.m. when card playing will begin.

This event is arranged for the benefit of the South Morrow County Senior Citizen Building Fund. Everyone is cordially invited.

RESOLUTION

Inviting citizens to light porchlights, candles or other lights from dusk to dawn on November 19-20, 1985.

Whereas the United States and the Soviet Union among all nations lead in the development and accumulation of weapons with the ability to devastate and possibly end human life on Earth;

Whereas the increased speed and accuracy of nuclear weapons on both sides greatly increase the danger that nuclear war will occur;

Whereas scientific evidence suggests that the detonation of even a small number of nuclear weapons already in existence would result in dramatic climatic changes which likely would end human life;

Whereas President of the United States Ronald Reagan and General Secretary of the Soviet Union Mikhail Gorbachev share responsibility for the avoidance of nuclear war, the peaceful resolution of global conflict and the instigation of joint cooperation projects;

Whereas leaders of the National Council of Churches of Christ in the USA, the World Council of Churches and the United States Catholic Conference have called upon citizens everywhere to light porchlights, candles and other lights on November 19-20, 1985 from dusk to dawn to openly display their desire for world peace; Now, therefore, be it

Resolved by Cara Costa, Mayor of the City of Heppner that she invites all citizens to light porchlights, candles or other lights from dusk to dawn on November 19-20, 1985 while President Reagan and General Secretary Gorbachev will heed the desire of people around the world to work, raise children, build communities and pursue a quality of life free from the threat of war - by reaching an understanding on an arms control agreement which significantly cuts nuclear stockpiles and makes strides toward halting the arms race between the United States and the Soviet Union.
