Road Report

The Morrow County Road Department plowed their first major snow of the year this past week.

Crews are stock piling gravel at the Kunze Road pit from the crusher site in Boardman. Applying of base and gravel on the construction of Rhea Creek continues. Blades were on the following roads: Kincaide, Holtz, Brenner, Bergevin Canyon, Keck Canyon and Barclay.

The Roadmaster is requesting that all truck haulers haul now to avoid the situation experienced in the past year. We are into winter which creates the greatest damage to the roads due to freezing and thawing.

There will be load limit restrictions applied to county roads if and when the time should come to protect them.

Please haul commodities now before load limits are applied. The Road Dept. will enforce these restrictions.
