NEW STUD MILL
Kinzua Corporation's most recent achievement and addition to its Heppner operation, is a new stud mill. Employing 36 additional people, the mill will produce 30 million board feet of studs per year. The mill uses primarily white fir in stud production.
Addition of the stud mill will represent another step in Kinzua's continued economic contribution to Morrow County.

Making
Morrow County
a Better Place
to Live

**MODERN
COMPUTERIZED SAWMILL**
Kinzua Corporation's modern computerized sawmill produces kiln-dried lumber from Ponderosa Pine, Douglas Fir, Larch, White Fir, and Lodgepole Pine.
The Mill was modernized in 1987 to produce lumber more economically, and to more efficiently saw small logs. One hundred five workers are employed at the sawmill, which turns out 53,000,000 board feet of lumber per year.

CHIPPING
Kinzua Corporation contracts chipping operations in the woods, chipping otherwise unusable wood waste for burning in its co-generation plant. Approximately eight truck loads of chips are used per day. Chipping wood waste for providing electricity represents efficient use of the forest resources.

Businesses say congratulations and
thanks for you do for our county.
