Stewardship Week is April 30-May 7

Emphasizing everyone's role in protecting soil and water resources for future generations, the Morrow Soil Water Conservation District is encouraging local churches, organizations and individuals to join the nationwide observance of Soil and Water Stewardship Week, April 30-May 7.

The local district, which works throughout the year on soil and water conservation measures, is providing literature and speakers that highlight man's responsibility to be active stewards of our nation's soil and water resources.

Rudy Bergstrom, chairman of the Morrow SWCD, said that although farmers and ranchers know that good conservation practices help increase yields and improve their profit potential, they also know the importance of passing on well-cared-for natural resources for future food producers. "We could give our children all the money in the world, but it would do them little good unless we also give them a productive soil on which to live," said Bergstrom.

Since 1955, the National Association of Conservation Districts has sponsored Soil and Water Stewardship Week, in cooperation with nearly 3,000 local conservation districts nationwide, as one way to emphasize the importance of good stewardship of basic soil and water resources.

Materials especially designed to convey the 1989 theme, "Renewing the Living Earth," are being distributed by the Morrow Soil and Water Conservation District and may be obtained by calling or visiting the district office during business hours at 430 Heppner/Lexington Highway, 676-5452.

There is an editorial indicating what the Skinheads are about. The letter goes on to indicate what they want to do insofar as management of

an "All White Nation". A Northwest update is included indicating a large movement in the Portland area and inviting other Skinheads to relocate there. The article goes on to say that The Oregonian Newspaper and the Portland Police Department have put out biased information regarding the 'Skins'.
