OREGON

Education programs have long emphasized bringing the underachiever up to acceptable levels. Fine. But US WEST® employees in Portland recognized the need for a quite different program designed to serve top level high school students. An opportunity for the outstanding to reach the peaks.

They created The Registry of Achieving Students Program. Successful business people became mentors to young people. This personal guidance is truly meaningful.

summer jobs allowed the students to grow mentally, not just financially. The results have been spectacular. Now The Registry is a model for other Oregon businesses who support education. A US WEST® commitment to Oregon means sponsoring programs that serve people of all ages. Programs such as The Registry, that bring people together with people.

USWEST
Making the most of your time.

This summer, some of our best students can't wait to jump into their suits.
