

CAPECO to distribute flour, butter to needy

The Community Action Program of East Central Oregon (CAPECO) will distribute USDA surplus flour and butter to low income households on Thursday, March 29 from 10 a.m. to 3 p.m. at the Neighborhood

Center, 441 N. Main, Heppner. Low income households wishing to receive the food supplements must meet the federal income guidelines and bring proof of permanent address, such as a utility bill, driver's license or social security check.

A third party may pick up the commodities for another person only if that person is homebound, ill or unable to get off work. Anyone picking up the commodities for someone else must present a signed statement by that person with a proof of address, phone number, number of persons in household, gross monthly income of entire household and the reason a member of that household is unable to pick up the commodities.

According to Rosemarie Atfield, CAPECO community service manager, the commodities are available on a first-come, first-serve basis. Those planning to pick up commodities should bring a bag or box if possible. The flour comes in five-pound bags, and the butter in one-pound blocks.

Chamber Chatter

By Claudia Hughes, Chamber Manager

"Everything's Coming Up Roses"... seems like yesterday, but actually it was a year ago that you surprised that special someone with a dozen roses. The price is right again. Orders will be taken until Tuesday, April 3, with delivery on April 11. Contact the Chamber Office or a chamber member to order your roses. This event makes it possible for Heppner Chamber to meet their annual budget and do more for their community. It also brings smiles to many faces.

Chamber dues are due and new memberships are always welcome. Membership in Heppner Chamber isn't limited to businesses in town. Ranchers, individuals, anyone interested in improving the quality of life in our community and helping to build a healthy economy are invited to join. Your membership will help you become an active part of what happens in Heppner.

Downtown revitalization was the topic for Chamber Tuesday. Guest speaker was Brian Scott, president and director of the Oregon Downtown Development Association. The object of the Downtown Association is to help towns revitalize and maintain their heritage. It focuses on organization, promotion, design, and economic restructuring. Simple details such as cleaning up existing buildings to complement our town, maintenance, watering plants, attractive window displays, store signs, and coordinated efforts all identify a community. More and more the association seems to be gearing down to meet the needs of small communities and to assist them with small changes that can make a big difference. Heppner is going places. And if we all work together, we can make a difference.

Next week: Board meeting at 11 a.m. followed by Chamber noon business meeting. During lunch our school and Bob Isted will provide music.

Thought for the week: "People are lonely because they build walls instead of bridges."
