October 1, 1990
 The City of Heppner reports that a water sample taken during the month of September 1990, exceeded federal drinking water standards for coliform bacteria. Chlorination of the reservoirs has been done as required.

Coliform bacteria are not harmful, but are used as an indicator of overall water quality. No health risk is indicated in this case, and the bacteria could be present due to a number of causes, including dirt in the reservoir, lack of flushing of dead end mains, or sampling error. No action by water customers was warranted but federal and state regulations require that the city provided this notice.

1 CARD OF THANKS

I wish to extend thanks and appreciation on behalf of myself and my family for all the love, cards, flowers, food and prayers extended towards us during the recent death of my sister and my recent chemotherapy treatment in Walla Walla. It would be difficult to face reality without support from dear friends. A special thank you to Heppner Elementary staff, Molly Rhea, Karen Morgan and Sam Devin for all your food and care. You're the greatest and I'm grateful to be part of Heppner's school and community.

Joy Klein 10-3-1c

Dear friends of mine, I can't adequately thank you all for coming to our home and to Quinn's memorial service.

Quinn was very precious, full of vigor, vitality and wit. I appreciate those of you who took time to care for, share and love our little guy.

Compassion has no age, people came to the memorial service. The church was full. Aching hearts and souls embraced and shared memories.

Stacks of sympathy cards, bouquets, plants, food, calls and hugs soothed me from the ugly paralyzing shock. Not a room in our home escaped the love, support and concern I received.

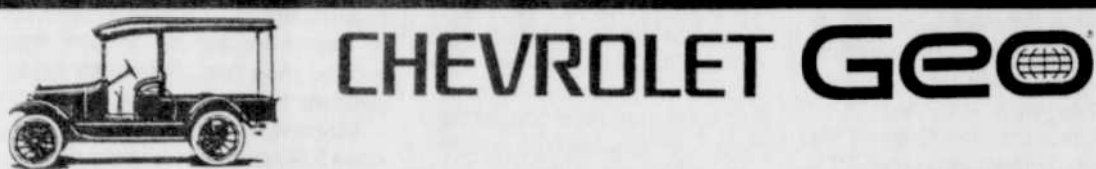

The frustration, anxiety and gutted feeling is quite beyond comprehension. This day (one week after his death) I feel it will be totally unimaginable to fathom living each day with out that one.

Quinn's mother and friend Linda Tullis 10-3-1c?
